

Community-Based Protection of Refugees in Jordan

Al Nuzha Community Support Centre

as of October 2019

THE VISION

Al Nuzha Community Support Centre (CSC) opened in 2018 as the second phase in UNHCR's work on community cohesion and urban community outreach, bringing together refugees and Jordanians in the design, implementation and evolution of community based support. It is the first multi refugee nationality CSC following the "One Refugee" approach, aimed at targeting all refugees in need of protection, irrespective of their country of origin and to the same standards.

To ensure sustainability of the project, UNHCR builds upon the cooperation with its national partner JOHUD. This approach aims at the strengthening of national Community-Based Organizations (CBOs), while at the same time including refugees into national structures.

The centre offers a range of protection, social, cultural and training opportunities.

Nuzha is also a key component of UNHCR's ongoing efforts to facilitate a structured dialogue between the host and refugee communities.

It is used as a platform to further skills training and livelihood opportunities, and a safe space for refugees to gather, exchange ideas and engage in community life, strengthening the sense of belonging.

Like all CSCs across the country, it also serves as a platform to provide mobile helpdesks and registration outreach activities.

All activities and responses in the centre are consistent with relevant UNHCR policies, such as Communicating with Communities (CwC), Accountability to Affected Populations (AAP) and Age, Gender, Diversity (AGD) Policy.
