

Somalia

1 - 31 December 2019

In December, 61,000 new internal displacements were monitored by the UNHCR-led Protection and Returns Monitoring Network (PRMN). Of the 770,000 new displacements monitored year-to-date, drivers include conflict and insecurity (190,000), drought-related (148,000), floods (416,000) and other reasons (16,000).

During December, the main driver for new displacement was floods (46,000) affecting mainly Middle Shabelle region. Ongoing military operations (7,000) continue to lead to new displacement within and from Lower Shabelle.

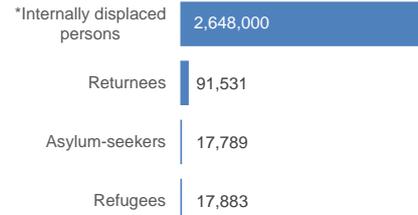

As of the reporting month, there were 35,582 refugees and asylum-seekers registered in Somalia, mainly from Ethiopia (17,446 asylum seekers and 4,259 refugees) and Yemen (50 asylum seekers and 13,209 refugees). 618 persons were from other countries including Syria (264), Tanzania (121), Eritrea (105) among others.

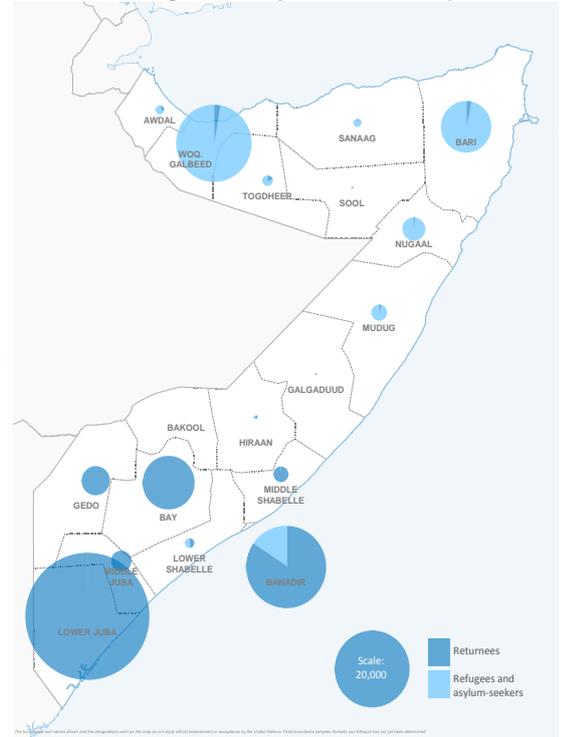

Since December 2014, 91,232 Somali refugees have voluntarily returned to Somalia with UNHCR assistance from different countries of asylum including Kenya, Yemen, Djibouti, Libya, Sudan and Eritrea. In addition, some 38,000 Somalis were monitored as arriving from Yemen since March 2015.

Population of concern

*Estimated internally displaced persons as of 31 July 2018 (Source: Information Management Working Group)
