Total learners who accessed Kolibri Platform from January to August 2020: 17,000.  
Numbers are based on weekly and monthly reports provided by Education partners:  
Blumont in Zaatari Camp, CARE in Azraq Camp, and JOHUD in urban.

Due to the COVID-19 pandemic, all Connected Learning Hubs were temporary closed.  
Learners accessed Kolibri Platform virtually from home.  
Numbers in June, July and August increased rapidly as internet bundles were provided to 200 learners by our partner in urban: JOHUD.
