

# Aegean Islands Weekly Snapshot

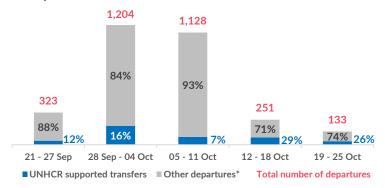

#### **Arrivals**

This week, 25 people arrived on the Aegean islands, a decrease from last week's 38 and from last year's 1,644 arrivals during the same period.

The average daily arrivals on all islands this week equaled 4, compared to 5 in the previous week.

## Departures to the mainland

#### **Entry Points by Sea**

Lesvos received the highest number of arrivals (21), followed by Samos (4). Chios and the Dodecanese islands received no arrivals.

This week, 133 asylum-seekers departed, once authorized by the authorities, from the Aegean islands to the mainland. Of those, 35 were transferred by the Government with the support of UNHCR to ESTIA apartments currently managed by UNHCR and the Ministry of Migration and Asylum (MMA).

# Present Population on the Islands

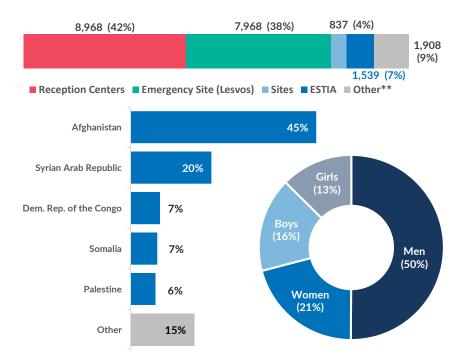

Some 21,200 refugees and asylum-seekers reside on the Aegean islands. The majority of the population on the Aegean islands are from Afghanistan (45%), Syria (20%) and DRC (7%).

Women account for 21% of the population, and children for 29% of whom nearly 7 out of 10 are younger than 12 years old.

Approximately 5% of the children are unaccompanied or separated, mainly from Afghanistan.

### Shielding against Covid-19

To 'shield' the older and immune-compromised asylum-seekers from the risk of COVID19, UNHCR is currently prioritizing their transfer out of the island RICs into ESTIA apartments on the islands or the mainland and hotels on the islands. This week, 31 people were moved, of whom 26 to ESTIA on the island and 5 to ESTIA on the mainland.

Figures are subject to future adjustment based on consolidated figures provided by authorities. Percentages may not total 100 due to rounding.
