

SITUATION OVERVIEW

More than 861,500* Rohingya refugee women, men, girls and boys are hosted in Cox's Bazar District in Bangladesh, including 35,060 registered refugees who arrived in the 1990s (4%), and other unregistered Rohingya refugees who had settled in host communities prior to August 2017. Children make up 52% of the total refugee population and women and girls make up 51%.

The humanitarian situation in Cox's Bazar has been affected by the spread of the COVID-19 pandemic. In Cox's Bazar,only critical activities continue within the refugee camps although discussions with RRRC are ongoing on progressive and cautious increase of activities implemented. UNHCR continues to provide critical services focusing on Protection, Health, WASH, nutrition, fuel support (LPG) and other non-food items, and other activities as part of its communication with the community.

This dashboard monitors the progress being made to deliver protection and assistance activities with reference to selected indicators from UNHCR Bangladesh's 2020 country operations plan. It provides an overview for each strategic area of activity with cumulative key figures and monthly highlights.

*Refugee registration is ongoing exercise which includes registration of new born, registration of newly arrival and deceased individuals

PROTECTION

861,545 ¹ refugees registered through the joint Government of Bangladesh-UNHCR registration exercise
 7,427 refugees and community leaders attended legal awareness raising sessions

36,778 complaints received under the community-based complaints mechanism

57,708 girls and boys benefiting from age, gender and diversity sensitive structured and sustained mental health and psychological support services.

1,693 partners, government and UNHCR staff trained on SGBV prevention and response

CBCPMS = Community-based child protection nechanisms

Cumulative figures since 26 June, 2018

Camps where UNHCR support Site Management Registered Camps

Female Female PBC/II.WHCR Family Counting as of 20 Sentember 2020

ACHIEVEMENTS (SEPTEMBER 2020)

- 14,121 individuals whose records have been updated as part of the joint exercise.
- 139 PoC (Person of concern) with disabilities received specific support.
- 7,653 complaints received under the community-based complaints mechanism.
- 270 partners, government and UNHCR staff have been trained SGBV prevention and response.
- 23 monitoring visits were conducted to detention centres.

ACHIEVEMENTS (SEPTEMBER 2020)

 Due to COVID-19 pandemic the usual learning activities have been suspended. Nonetheless, UNHCR worked with the education sector partners to disseminate caregiver-led education guidelines in the camps to support caregivers and parents in facilitating some learning in their homes while the facilities remain closed.
