

COVID-19 cases as % of population

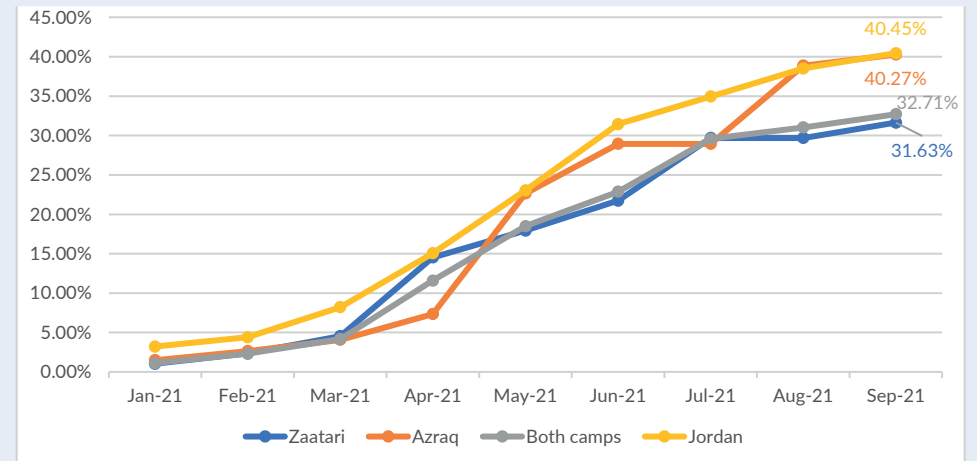

New COVID-19 cases among PoCs in camps per epidemiological week

COVID-19 vaccinations as % of population\*

COVID-19 vaccine registrations as % of population\*

\* Vaccination and registration rates calculated as a percentage of total population, not population eligible to receive the COVID-19 vaccine.

Total recorded cases  
**4,201**

Total recovered cases  
**4,116**

Total deaths  
**49**

Total persons registered for COVID-19 vaccine  
**42,499**

Total persons vaccinated  
**30,599**

*(numbers as of 15 October)*

## HIGHLIGHTS

- ◆ The number of cases among refugees remains well below the national average, with just over **3%** of the refugee camp population having tested positive since the onset of the pandemic, compared to almost **8%** of the total population in Jordan.
- ◆ The recovery rate of **98%** among refugees in camps reflects the national recovery rate.
- ◆ In September, vaccination numbers among refugee populations in camps continued to increase, while the daily number of recorded COVID-19 infections remained stable and low.
- ◆ Some **63%** of the refugee camp population eligible to receive the COVID-19 vaccine (now including children above 12 years old) have registered on the government platform, while close to **45%** having already received at least one dose.
- ◆ Refugees living in urban areas of Jordan are also included in the national COVID-19 vaccination plan.

## COVID-19 RESPONSE

- ◆ Two in-camp vaccination centres in [Zaatari](#) and one in [Azraq](#) camp
- ◆ [Awareness raising](#) about the COVID-19 vaccination program, through focus group discussions, the UNHCR Helpline, [outreach volunteers](#), [FAQs](#), [social media](#), and more
- ◆ Upgrading of [quarantine facilities](#) in camps
- ◆ Health screening [procedures](#), surveillance and monitoring
- ◆ [PPE provision](#) for frontline workers/refugees
- ◆ [Remote services](#), protection hotlines and newly launched [Help website](#) platform
- ◆ Supporting refugee access to [e-learning](#) platforms
- ◆ Enhanced [community engagement](#) and [communications](#) via SMS text, social media and WhatsApp to refugee populations
