UPDATE: A Report of the Development of the New Internal Displacement - Ad Durayhimi- Al Hodaydah Governorate 14 November 2021

Report date: 14/11/2021
Day: Thursday
Time: 9 p.m. (Yemen local time)

Introduction

Ad Durayhimi District is one of Al Hudaydah Governorate districts in western Yemen. Its population is around 60000 but in the last few years the district witnessed large internal displacement. Currently, the district is partially under the control of Houthis and partially under the control of national forces (legitimacy forces). The largest part of the district is under the control of the legitimacy forces. This led the district to be a theatre of conflict between the two conflicting sides. As a result of Stockholm Agreement that stipulates mutual redeployment of forces in the area and the current developments, the IDPs were informed to leave the area within 48 hours. Thousands of IDPs are leaving their places and head towards safer areas either inside the governorate or to other governorates. This preliminary report shows the mass displacement of households from Ad Durayhimi District occurred over the period 14/11/2021.

Recommendations

The following is recommended for humanitarian partners:

- The Food Security Cluster should direct the WFP partners to include these displaced persons in the programme.
- The Shelter Cluster should direct partners to respond quickly to cover the rent and NFI needs of the newly displaced persons in the new displacement sites.
- The Water and Environmental Sanitation Cluster should direct the partners to respond quickly to provide water tanks and tanks in the new displacement sites.
- The Protection Cluster should work to provide multi-purpose cash assistance to help some displaced households pay housing and other rents in the new displacement sites.
- All the humanitarian clusters and sectors in Yemen are recommended to urgently intervene to rescue these displaced persons and reduce their sufferings.
- The OCHA office is recommended to allocate urgent emergency funds to meet the basic needs of the displaced households in the new displacement sites.
- All NGOs and governmental organizations should intensify their efforts in Al Khawkhah where most of the displaced households are settled.

Conclusion

The current developments in the district led to a move of mass displacement. **322** households with **1924** individuals were displaced on (14/11/2021). The number is expected to increase where hundreds of households are still struggling their way to reach Al Khawkhah. The overwhelming majority of displaced households are reaching Al Khawkhah. This huge number of displaced households is in urgent need of humanitarian interventions by humanitarian partner. Humanitarian partners and local NGOs are strongly recommended to intervene quickly to alleviate the sufferings of the displaced households. This number of households is added to 614 households reported on 13 Nov.2021. The total is 614 (reported two days ago) +322=936 households within one-week time. The Executive Unit team is working 24 hours to receive and monitor displaced households.
