

Community-Based Protection Response

Cabo Delgado, northern Mozambique

UNHCR’s protection response relies on **supporting the government with service and assistance provision** to displaced and host communities, and **strengthening and empowering community structures** and social dynamics, while prioritizing **accountability to affected populations**.

UNHCR conducts **regular protection monitoring exercises** together with partners and protection focal points from displaced and host communities **to assess the main needs** of displaced families and those hosting them **to plan and tailor interventions**.

In January, **883 households were surveyed** during protection monitoring exercises. Since September 2021, UNHCR and partners interviewed **12,739 households** and registered **1,550 protection incidents** in Cabo Delgado.

DISPLACEMENT TRENDS – DECEMBER 2021

 **735,000** displaced people in northern Mozambique

 **59** per cent are children, **19** per cent are adult women, **17** per cent are adult men, and **5** per cent are older people

 **10,395** Mozambican asylum seekers *refouled* from Tanzania in 2021

KEY ACHIEVEMENTS

JANUARY 2021 – JANUARY 2022

 **17,101** people from displaced and host communities received legal assistance, of which **10,231** received civil documentation

 **230** youth engaged in human rights, peaceful coexistence and recreational activities

 **84** assistance devices distributed to people with disabilities in IDP and host communities

 **153** Protection Focal Points working with displaced and host communities, disseminating protection messages and referring around **4,000** vulnerable cases for services and assistance

The results of protection monitoring exercises during the months of November and December 2021 indicate that the highest number of past protection incidents occurred in the districts of Mocimboa da Praia, Muidumbe, Palma, Macomia, Quissanga, and Nangade. These incidents were allegedly perpetrated by Non-state Armed Groups (NSAGs), and include killings, forced recruitment, destruction of property, physical violence, and torture. Out of all incidents reported, 74 per cent occurred before flight, 23 per cent during flight, and 3 per cent after flight.

UNHCR is working closely with the government and partners to assist households who experienced protection incidents and ensure they have access to services, including GBV, mental health and psychosocial support.

Overview

Violence in Cabo Delgado began in 2017. It triggered a protection crisis. Displaced and host communities are exposed to multiple risks and in urgent need of protection and humanitarian assistance and services. [Protection monitoring reports](#) indicate that displaced families experienced and/or witnessed multiple protection incidents, are traumatized, and faced various risks before, during and after fleeing violence, including killings, separation of families, kidnapping, child recruitment, extortion, rape, and other forms of gender-based violence. The most vulnerable are unaccompanied and separated children; older people; persons with disabilities and medical conditions; and survivors of torture and abuse, including survivors of gender-based violence (GBV) and sexual exploitation and abuse (SEA). Tensions between local and host communities are on the rise due to limited resources available, such as land, water, food, and shelter.

It is urgent to ensure an adequate response to address the immediate, medium, and long-term needs of families forced to flee. It is equally important to support host communities to ensure effective social cohesion and peaceful coexistence.

UNHCR's Community Based Protection (CBP) strategy

UNHCR works together with partners¹, local authorities, Protection Focal Points, displaced and host communities, UN agencies, NGOs and different coordination clusters, to address the needs of families forced to flee and those hosting them. The main components of UNHCR's CBP strategy consist of:

- 1. Expanding and strengthening UNHCR's protection presence**, including in high-risk and hard-to-reach areas, through regular protection monitoring, assessments, case management and referrals.
- 2. Facilitating access to documentation** through the UNHCR/UCM mobile legal clinics; public legal education; and awareness campaigns/information dissemination on the importance of civil documentation.
- 3. Strengthening community-based protection** through community engagement; establishing community-based structures and implementing feedback and response mechanisms.
- 4. Strengthening data and information management** in areas of general legal protection; child and youth protection; protection and inclusion of persons with disabilities; and prevention of statelessness.
- 5. Implementing community-based targeted approaches** to enhance the protection of unaccompanied and separated children, youth, and persons with disabilities.
- 6. Enhancing partnerships and coordination mechanisms** with displaced and host communities, local authorities, UN, NGOs, and civil society.

Gaps and Challenges

-  **Limited capacity of existing services to assist vulnerable groups** such as unaccompanied and separated children, people with disabilities, older persons, and GBV survivors.
-  **Limited presence** of experienced **protection partners** in Cabo Delgado.
-  **Reduced funding** available to scale-up protection activities and service delivery.
-  **Volatile security situation and inability to access some hard-to-reach areas** with ongoing military operations in areas hosting forcibly displaced communities.
-  **Challenges in deploying international staff** to Cabo Delgado related to visa/migration processes.

UNHCR and partners work together with displaced and host communities to strengthen community-based responses.

This includes the provision of tailored training to local authorities, community and religious leaders, and Protection Focal Points, to empower them in finding their own solutions.
