	<ul style="list-style-type: none"> - - WHO Murat- the second service mapping exercise it's ongoing. Romania completed in high numbers the data submissions among other countries. - Gabi Diaconu- mentioned the need for more psychotherapist and counselors and more types of intervention to be added to what's already been done and also mentioned two very important key factors in this intervention. The first factor being a minimal standard of documentation and the second is minimum standard of intervention. From the judicial aspect. a minimum standard of documentation and a minimum standard of intervention, needs to take into account the judicial aspects of the process. - MdM – is currently conducting an assessment needs and gaps regarding MHPSS activities with a component on the sexual and reproductive health and a component on but also to support victims of sexual abuse. - MdM -offered support to develop a framework, a way of working with a interpreters, framework to work with interpreters, psychology, social workers. - Save the Children: This week offered a training to the DGASPC on PFA on how to support children's to psychologists from the Maramures County. 	<p>week. Murat will shared the link in the chat box and until June 1st it will ben submitted.</p> <ul style="list-style-type: none"> - June 2nd, the service mapping will be available in OneDrive to be used as a referral pathway or as a resource for mappings. - WHO Proposed along site with Estuar and MoH an short ethical doc that can be signed by First Responders. Joined effort in elaborating this document - MdM is planning to have a mobile unit to address MHPSS services and sexual and reproductive health. - WHO (Sorana) provided update on GBV Referral Pathways. - Iasi- FONSS, with the support of the Association Alternative Sociale (member of FONSS).
