

Dental-Emergency-Team

Who we are

What we did until now

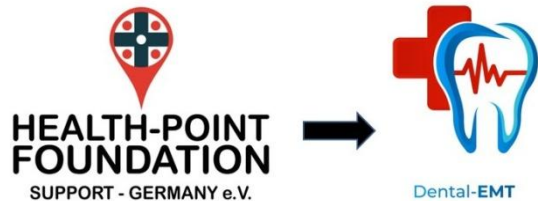

Dental-EMT

- Health-Point-Foundation founded 2015 US/ GB
- Non-profit, non-governmental aid organization of volunteers that is committed to medical and dental care and health education for refugees from crisis areas, regardless of religion, race and nationality
- Several bases in greek refugee camps, lately based in camp Moria, Lesbos
- The german branch of the HPF consisted of volunteers from the HPF, who did not want to end their help after their service on Lesbos

Aim to treat these people, who have fled war and poverty, with the utmost respect and dignity

Why Dental-EMT?

After the HPF withdrew from Greece in early 2020, we considered a name change. In the interests of independence and to avoid any misunderstandings, we have decided to act as Dental-EMT

2015-2021 Lesbos

Dental-EMT

2022-2023 Chios
