

GRADUATING TO RESILIENCE

Graduating to Resilience Activity Overview

Goal: Graduate extremely poor refugee and Ugandan households in Kamwenge District from conditions of food insecurity and fragile livelihoods to self-reliance and resilience

Period: 7 years (Oct 1, 2017 - Sept 30, 2024) in two cohorts

Participants: 13,829 women and youth as primary participants

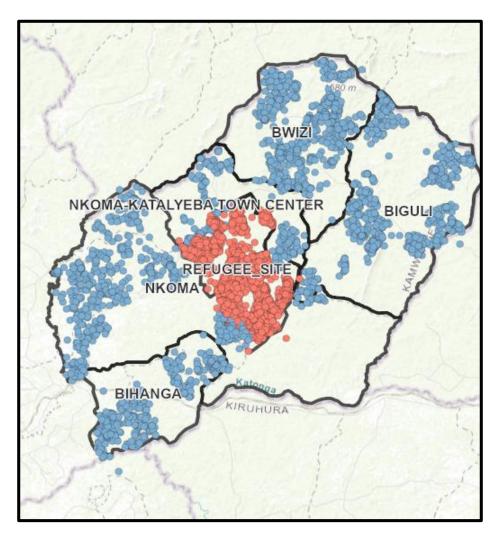

•Cohort 1: 6,629 primary participants (Active 5,199)

Cohort 2: 7,051 primary participants

Budget: \$36.7 million

Implementer: AVSI Foundation in a consortium with Trickle Up and American Institutes for Research (AIR)

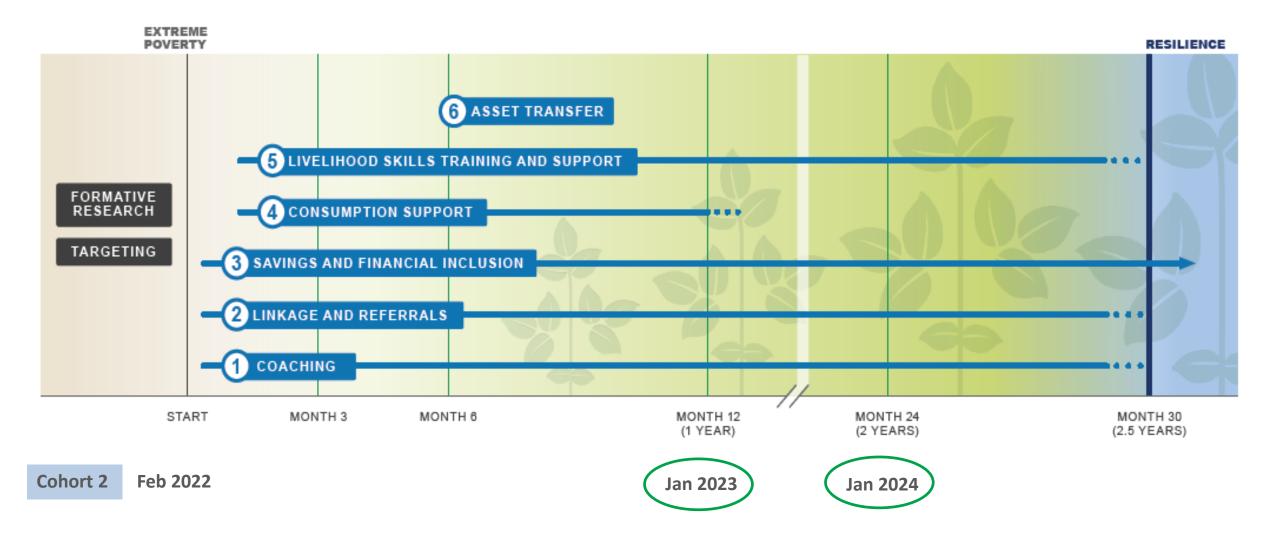

External evaluator: Innovations for Poverty Action (IPA) conducting an RCT to measure impact and cost-effectiveness of the graduation model

Blue: Host Community Households

Red: Refugee Households

Graduating to Resilience

Lessons - Impacting Graduation Porgram Designs and adapted within Cohort 2

- Group coaching is effective promotes social cohesion/peer support BUT an additional household level touch point is helpful for observation and tailored support
- Most Significant Activities identified by participants coaching,
 savings, asset transfer in a graduation approach type program
- Family/household approach an inclusive way of working with an entire family while addressing women and youth needs
- Refugees might take longer to graduate compared to Host (18-24 months might be enough for host but refugees might need 24-30 months)
- Drop out will happen! Plan for this (about 22%) @Cohort 2 only
 5% drop out at month 13/24
- Adaptive Learning and the use of evidence for decision making is critical
- **Digital Tools and products** can be leveraged for better delivery at scale and to leverage impacts Markets, connections, efficacy

Graduation Progress Over Time (Cohort 2)

Adaptations - Scale Up and other designs

- Participant reach: Cost effectiveness based on working within a single settlement targeting everyone (90% of participants)
- Potential Graduation Rates: 73-85%
- Optimum Graduation Timing: 24 months Inclusive of Refugess and Host
- Consumption Support: considerations for reduction to 8 months (5 USD per person per month for 5 people) 200 USD instead of 300 USD (savings of 100 USD)
- Cost per Household: \$1,000 1,100 USD Viable for 24 months
- Coaching: Group coaching: 1 coach to 100 Households. Use a "buddy", Use a structured curriculum
- Market systems development: Targeted engagements with MSD actors towards leveraging support, reducing costs, and increasing sustainability and scale
- Spill over possible especially in the area of food security and among host communities
- Measurement of long-term resilience: 1 year post graduation Results show (61% Resilience and 72%H and 52% R)
- Positive evidence supporting psychosocial support activity embedding in coaching Added to coaching topics
- Cognitive and social emotional growth of children is not automatic Additions to be made to ECD and Parenting

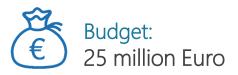

Project Title: Sustainable Market Inclusive Livelihood Pathways to **Self-Reliance (SMILES)**

Funding Partner:

IKEA Foundation

5 years (1st November, 2022 to 31st October, 2027)

Sectors:

Target:

14,000 Households (70,000 People) (50% refugees and 50% host community)

Location:

- 1. Kyaka II Settlement, Kyegegwa District.
- 2. Kyangwali Settlement, Kikuube District.
