people reached by ES/NFI cluster in Ethiopia

Context

Under the Emergency Shelter and Non-Food-Items (ES/NFI) Cluster, UNHCR continues to respond to the shelter and non-food items (NFIs) needs of Internally Displaced Persons (IDPs). Returnees and non-displaced affected population in eight (8) regions, including the Northern part of the country. Shelter and NFIs support is being provided to the displaced population affected by conflict and climate change (drought and flood), with special emphasis on the needs of women, children, people with disabilities and the most vulnerable or at risk. The shelter and NFI cluster have targeted 3.9 million individuals from the 5.4 million identified as People in need. UNHCR response ranges from emergency relief to IDPs who are residing in temporary accommodation centers, within the host communities and in formal sites to promotion of durable solutions for families who have returned and those that have relocated in coordination with the implementing partner and DRMO and local government agencies.

From January to June 2023, UNHCR has reached 416,756 persons with ES/NFI assistance, representing 43% of the total of 959,000 people reached by the ES/NFI cluster in Ethiopia.
