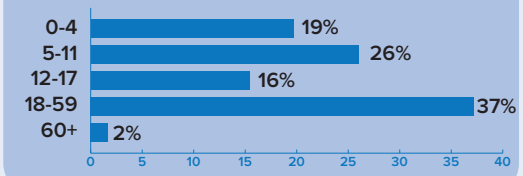
AGE BREAKDOWN



Trends, Highlights and Challenges

- A total of 132 private latrines were built during February out of 400 that are planned to be constructed by end of May 2023.
- The lack of livelihood opportunities in Azraq camp remains a challenge and increases the vulnerability of refugees, who rely on humanitarian assistance to make ends meet.
- During February, UNHCR noticed a positive trend towards the change of the electricity consumption behavior of refugees, with about 4% of blocks being disconnected due to repeated blowing of fuses, as compared to 20-30% in previous months.

Key Facts and Figures

- More than 11,000 children are enrolled in education; this represents 69% of school-age children in the camp
  - 11,347 children from kindergarten 2 to Grade 12 (50% female) enrolled in formal education
  - 267 children (51% female) enrolled in Ministry of Education accredited non-formal education
  - 15 schools and 5 standalone kindergarten 2 centres
- As of the end of February, over 1,250 active work permits holders, including 10% female, are registered in the database; this represents around 8% of Azraq's working-age population
- Around 1,800 refugees, including 43% female, were engaged in the Incentive-Based Volunteer scheme, which allows refugees to work with organisations in the camp as paid volunteers

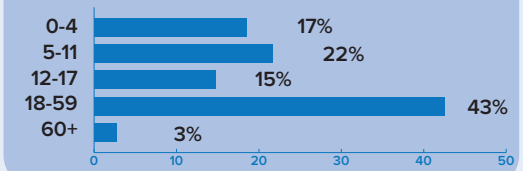
AGE BREAKDOWN



Trends, Highlights and Challenges

- 247 new births were recorded in Zaatari camp.
- More than 5,800 cases were processed by UNHCR for different registration issues including documentation renewals.
- Maintenance of refugee shelters remains a priority, with the majority of shelters still requiring repair work.
- Electricity consumption in the camp remained one of the biggest challenges for UNHCR, as refugee needs outstripped solar power production and required an additional US$ 340,000 this month.

Key Facts and Figures

- More than 22,000 children are enrolled in education; this represents 74% of school-aged children in the camp
  - 22,064 children from kindergarten 2 to grade 12 (50% female) enrolled in formal education
  - 297 children (47% female) enroled in Ministry of Education accredited non-formal education
  - 8,178 children benefitting from integrated learning support offered by UNICEF Makani centers
  - 32 schools, 13 kindergartens and 58 community centres
- As of the end of February, some 2,500 active work permits, including 10% female, were registered in the database; this represents around 7% of Zaatari's working-age population
- Around 3,000 refugees, including 41% female, were engaged in the Incentive-Based Volunteer scheme, which allows refugees to work with organisations in the camp as paid volunteers
