2. **Slovakia Multi-Sector Needs Assessment – Preliminary Findings**

The MSNA is an essential interagency tool for planning and prioritization, decision making and needs-based program designing. The main purpose of the MSNAs is to support the RRP planning cycle process and to enable planning among key humanitarian actors through the provision of updated information on multi-sectoral needs and priorities of refugees from Ukraine. Results of the MSNA will be used by all stakeholders under the Regional Response (RRP) to understand the evolving situation, unpack risk and vulnerabilities and to advocate for funding from donors.

The MSNA Interagency Team (led by UNHCR and conformed of focal points of IOM, UNICEF and WHO), are supporting the implementation of this initiative in Slovakia. During July and August a total of 819 household were interviewed, covering 1.853 Household members in all 8 regions of the country. Sectoral results were presented to the members of the group to understand and interpret the findings in the current context of Slovakia.

Action Points:

- MSNA Interagency Team will share the PPT with the Preliminary Findings with the IMWG for their inputs and feedback - [LINK](#)

3. **Q2 RRP Activity & Funding Report**

UNHCR focal point informs that we are close to finish Q3; therefor RRP members would need to report September activities and Q3 funding received before the deadline 10th October.

UNHCR focal point thanks all organizations for contribution in this interagency exercise; key for future planning and response coordination.

Action Points:

- RRP partners to report in Activity Info September Activities and Q3 Funding received.
- UNHCR Focal point will share the final reports with IMWG members.

4. **A.O.B. – No other points**

Next meeting: End October
