

## SUDAN SITUATION Regional Displacement Update

as of 06 Feb 2024

**OVERVIEW:** There are now 7.9 million forcibly displaced due to the outbreak of conflict in Sudan since April 2023, including 6 million internally and 1.6 million in neighbouring countries. Sudan and neighbouring countries were already hosting large refugee populations before this new emergency and require additional support to provide protection and critical life-saving assistance, including for those who have been secondarily displaced within Sudan. Urgent needs include water, food, shelter, health, and core relief items. The current priority activities are the registration of new arrivals, relocation away from border areas, identification of especially vulnerable families and persons with specific needs, and putting mechanisms in place to prevent and respond to gender-based violence and ensure alternative care services for unaccompanied refugee children.
