HIGHLIGHTS

In the second quarter of 2024, “Trust in the Toucan” experienced growth. Compared to the previous quarter, the initiative registered a 19.9% increase in user engagement, including comments, likes, and shares.

These interactions originated from countries such as Venezuela, Colombia, Peru, and Ecuador.

On TikTok, the account reached 36% more users, increasing its followers from 44,200 people to 60,000. Facebook followers decreased.

During the same period, a trend aligns with the latest protection monitoring. Findings include a sustained preference for receiving information via TikTok. The increase in views and interactions on the “Trust in the Toucan” platform might be associated with regional human mobility trends and policy shifts.

PERFORMANCE METRICS

AUDIENCE PROFILE

Data made available by Facebook's Meta Business Suite and Tik Tok's Creation Center from May 1st 2023 to June 30th 2024

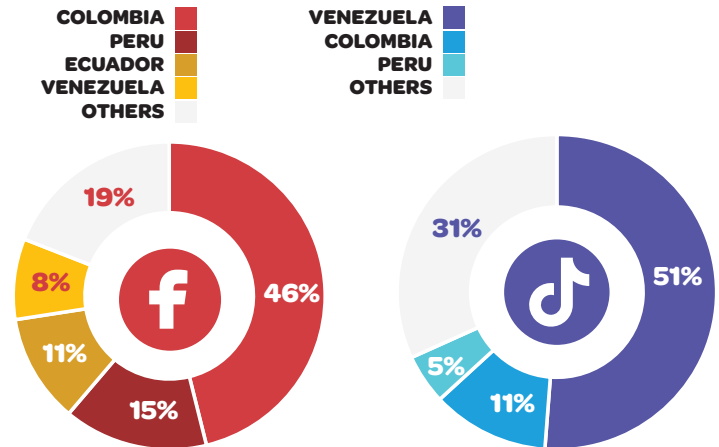

Confía en el Tucán (Trust the Toucan) was launched on social networks Facebook and Tik Tok by UNHCR, the UN Refugee Agency. The initiative challenges false publications and provides reliable information about the risks of the journey across the jungle connecting Panama and Colombia. To find out more, please read UNHCR's press release [here](#).

These trends and changes are generating a need for information and resources, assisting individuals in making informed decisions. Interactions indicate a high level of interest in the content, especially among the female audience, while most followers range from 25 to 44 years old on both platforms, TikTok and Facebook.

AGE DISTRIBUTION

COUNTRY DISTRIBUTION

TikTok figures are compiled based on the geolocation of users when they access the content. Facebook data corresponds to the place of residence that the followers of the page have registered on the platform.
