**ANALYSIS OVERVIEW**

The current number of 126 thousands refugees and asylum seekers represent an increase of 21% of the total number of refugees and asylum seekers individually registered between January and June 2024. Coastal countries (Benin, Côte d'Ivoire, Ghana and Togo) are affected by forced displacement because of the ongoing situation of conflict in the Sahel. New arrivals in these countries started in April 2021 and became more frequent since January 2023.

A total of 44% of refugee and asylum seekers are hosted in Cote d'Ivoire, 31% are hosted in Togo and 14% are hosted in Benin. More than 64% of refugees and asylum seekers come from Burkina Faso. As the registration process is ongoing, a total of 126,022 individuals already registered biometrically represent only 57% of the total new arrivals (180,465), the remaining figure (54,443 individuals) are asylum seekers preregistered and awaiting individual registration in Benin, Cote d'Ivoire, Togo and Ghana and represent 43% of the total new arrivals .

6% are internally displaced persons and are hosted in Togo

Côte d'Ivoire hosts over 931,041 persons stateless and at risk of statelessness at a result of national assessment made by the government in 2018.
