

ETHIOPIA Sudan Emergency | Aftit Settlement Profile

As of November 2024

OVERVIEW

UNHCR Field Office Genda Wuha was established in June 2023, following the war that erupted in Sudan in April 2023 and caused people to flee, with some entering Ethiopia through the Metema Point of Entry (PoE) in Amhara Region.

Two sites (Kumer and Awlala) were initially established in response to the influx. Following to the challenging security environment, the Government of Ethiopia decided to relocate the refugees and asylum seekers to a new site, Aftit, established in July 2024.

The development of Aftit has employed 'solutions from the start' as a vital approach to ensuring that refugees have access to existing services in the locality from the onset.

RRS, UNHCR and partners have worked with government structures and bureaus playing a lead role in the deployment/expansion of critical services, such as health, education and water systems, that cater for both refugees and host communities alike.

INFRASTRUCTURES ACCESSIBLE BY REFUGEES

Infrastructures	On site	Out of site	Comments	
Primary Health care Centre		1	Aftit health center (solutions from the start)	
Water Points	12	-	All water distribution points are emergency with water tanks connected to 6 faucets.	
Security Post	2	1	On site is under construction	
Vocational training centre	-	1	Genda Wuha Technical and Vocational Education and Vocational Training, TVET college (solutions from the start)	
Child-friendly spaces	2	-	Temporary structures	
Protection Desks	1	-	Temporary structure	
Family latrines / communal latrines	35	-	One block of latrine has 5 stances(doors), currently 7 blocks are on the site and functional	
Primary Schools	-	1	Aftit Primary school (solutions from the start)	
Secondary schools	-	2	Kokit and Genda Wuha Secondary Schools (solutions from the start)	
Marketplace		1		
Nutrition centre	-	-	Not available	
Community center	1	-	Refugee-led initiative	

SECTORAL INDICATOR MATRIX

This matrix is based on the most recent and accurate data available from UNHCR sector leads at the time of publication

Acceptable Unacceptable Critical

Sector	Indicator	Standard	Current Value	Sectorial challenges		
4	Proportion of children under 5 years of age born in Ethiopia whose births have been registered with a civil authority. $[SDG^* 16.9.1]$	100%	0% ●	- A total of 43 children under 5 year of age born in Ethiopia, none		
Protection	% of refugees and asylum seekers registered on an individual basis	100%	85% 🗕	registered with a civil authority.		
	Proportion of Persons of Concern with legally recognized identity documents or credentials	100%	34% ●	- 812 individuals are pending biometric level 3 registration		
Ê	% of households living in adequate dwellings	100%	0% 🔴	Insufficient local market for key construction materials and machinery parts has impacted both shelter and road construction.		
Shelter	% of households living in family emergency shelter	0%	100% 🔴			
	% of children enrolled in preprimary education	100%	92% 🔵			
=	% of children enrolled in primary education	100%	94% 🌑	long distance to attend secondary education at Genda Wuha host		
Education	% of children enrolled in secondary education	100%	78% 🔍	community secondary school 18 KMs		
	# of children enrolled in the national education system (Primary and Secondary). [GCR 2.2.1]	100%	90% 🛡	back and forth travel from Aftit refugee site to Gende Wuha secondary school.		
چ الد الله	Proportion of births attended by skilled health personnel. [SDG 3.1.2 Tier 1]	100%	66% 🔴	riequent nome deriveries and delays		
Health	% of children aged 9 months to five years who have received measles vaccination	>= 95	90% 🗕	in accessing early postnatal care remain significant challenges.		
•	% SAM* prevalence among children aged 6-59 months	<2.0%	1% 🌒	- Lack of a TSFP* program for MAM*		
Ø	% GAM* prevalence among children aged 6-59 months	<15%	9% 🔵	children and PLW* cases at the transit center posing longstanding		
Nutrition	% Stunting prevalence among children aged 6-59 months	<20%	11% 🛡	challenge.		
	% Anaemia prevalence among children aged 6-59 months			 Lack of nutritional screening for new arrivals at Metema entry point 		
Energy and	Proportion of PoC with primary reliance on clean (cooking) fuels and technology [SDG 7.1.2 Tier 1]		0% 🔴	- Cooking stoves are still being		
Environment	# of hectares of land reforested / rehabilitated in the last 24 months		0 ●	ordered		
μ	Liters of water received per person per day [emergency]	15	10.36			
WASH	# of persons per latrines stances	50	159 ●	water sources, where water is being trucking from, affect the water supply since the boreholes are connected to the grid.		
Livelihood	# of hectares of lands allocated to refugees for farming		0 🔴			

* TSFP: Targeted Supplementary Feeding Programme | MAM : Moderate Acute Malnutrition | PLW: Pregnant and Lactating Women | SDG: Sustainable Development Goals SAM: Severe Acute Malnutrition | GAM: Global Acute Malnutrition
