

Camp background information

Established in 2013, Darashakran camp was established to accommodate Syrian refugees. Unlike other refugee and IDP camps, Darashakran is the most isolated, situated 20 km from the nearest city centre (Darashakran town). Surrounded by agricultural farms, the camp is far from essential public service facilities. As a result, the residents rely entirely on services provided within the camp.

Key facts and figures

 2,582 Households	 11,868 Individuals	 29 September 2013 Establishment date
 UNHCR/EJCC (BCF) Camp management	 190 km Nearest international border	 646,777 m² Camp area size
