National Protection and Inclusion Working Group

Bulgaria

Structure

The national Protection and Inclusion Working Group is open to all humanitarian operational partners intervening in the Protection sector, be they Government (national, regional and local authorities), UN/inter-governmental organisations, or non-governmental organisations (both national and international) that are abiding by established humanitarian principles in the delivery of their humanitarian interventions (including commitments on Prevention Against Sexual Exploitation and Abuse (PSEA)) and have particular expertise in the field of Protection and inclusion/integration. Other actors such as academia can join the Working Group.

Working Group aims at coordinating action and interventions in relevant areas. Its sessions can provide a platform for the Government stakeholders and non-Governmental partners to provide updates and exchange information, and adopt decisions, for instance to engage in joint assessments and recommendations as well as develop joint action.

The thematic coverage of the Protection sector includes:

- Access to territory, detention, and return
- Implementation of Temporary Protection
- Child Protection and support for children,
- Gender-based violence, including protection from trafficking in human beings,
- Accountability to Affected People (AAP) and communication with communities

Inclusion and integration sectors include:

- Accommodation and housing,
- Social protection,
- Inclusion of persons with disabilities,
- Socio-economic inclusion and employment

The Working Group is initiated by UNHCR as UN Country Refugee Coordinator, and is normally co-chaired with the main Government stakeholders or civil society actors. The Working Group can set up formal or informal task forces to, for instance, agree on findings and make recommendations to the Government in relevant areas with a view of promoting and supporting refugee protection and inclusion.

When the Working Group (WG) decides to select an NGO or UN/inter-governmental organization representative as co-chair, the representative must be selected through a participatory and transparent process, and by wide agreement of the WG partners. The NGO or UN/inter-governmental organization co-lead should be from an organization with (a) recognised technical expertise in the sector, (b) operational capacity in the sector in the geographic area covered by the WG, and (c) the willingness and capacity to commit time and resources to the co-lead responsibilities. The WG may decide to have the co-lead on a rotation basis following a forum discussion.

The Working Group convenes periodically and regularly, ideally one session on protection topics every month, and one session on inclusion topics every month. The WG convenes in Sofia, but WG members can decide

to convene in another region/city for specific themes that are regional-focused. The sessions will be hybrid, but in-person participation is encouraged to enhance interaction.

The working languages are Bulgarian and English, and translation should be provided, subject to available resources.

Technical Task Forces

The WG may agree to form specific Technical Task forces, on a temporary or permanent basis, to provide a forum of experts to address certain thematic issues that require concerted action.

Principles of partnership

WG partners will commit to

- adhere to recognized protection standards;
- ensure predictable participation within the sector and engagement in its collective work including by nominating a focal point and alternate to participate to the WG meetings;
- ensure capacity and willingness to contribute to the strategic response plan and activities;
- mainstream key programmatic cross-cutting issues (including age, gender, diversity);
- work cooperatively with other partners and share information through the established mechanisms, including on organizational resources;
- be ready to facilitate participation, including from local organizations.

Partners are committed to highest ethical standards, and to encouraging professional and amicable interactions. This includes not preventing misinformation, including disseminating inaccurate or unverified information.

An option is given to organizations, activists and experts who wish to attend in an observer status.

Validity

There is no time limit for the validity of these TORs; the TORs can be revised when the members agree to revise the document.
