

- As of February 13th, UNHCR estimates that approximately 279,620 Syrians have returned to Syria since December 8th, 2024. The figures derive from the triangulation of sources both inside and outside Syria, including UNHCR offices and Government sources in Türkiye, Lebanon, Jordan, Iraq, and Egypt.
- UNHCR and partners border monitoring activities have helped collected information on the return conditions through households interview. This dashboard is the analysis report of 7,200 household interviews with focus on the household composition, place of departure and return, reasons of return and needs. Detailed analysis is available on this link

<sup>1</sup>The figures and charts are based on the UNHCR population movement tool and they are multiple-choice questions. Which may make them add up to more than 100%. Figures are subject to future adjustment and should not be considered final.

<sup>2</sup>The percentage represents individuals with at least one specific need. The same individual may be represented in multiple specific needs categories.
