Fact Sheet: Situation of Cross-checking and Deduplication of CVAs in Türkiye (July 2023)

- This fact sheet highlights challenges in cross-checking and deduplication of CVAs in Türkiye due to the lack of a centralized database and legal constraints on data sharing. While most actors rely on bilateral coordination, surveys, and geographic targeting, ESSN stands out with an effective mechanism run by TRC, allowing cross-checking through its KIZILAYKART platform.

Summary Note on FSPs in Türkiye (June 2023)

- This summary note provides key considerations for selecting and working with FSPs in humanitarian cash assistance programmes in Türkiye. It outlines common challenges such as data protection, intermediary costs, coordination gaps, and protection risks, while also highlighting good practices like secure transfers, cost efficiency, and flexibility. A non-exhaustive list of FSPs used by CBI TWG partners is included.
