PARTICIPATORY ASSESSMENT 2025

QUARTER 1 - FINDINGS OVERVIEW

INTRODUCTION AND METHODOLOGY

In 2025, the Participatory Assessment transitioned from being a periodic exercise to an ongoing exercise conducted in collaboration with UNHCR partners and accountability to affected people. Focus group discussions (FGDs) with forcibly displaced persons of various gender, age and social profiles are being conducted on an ongoing basis throughout the country, including the left bank of the Dniester river. To ensure a timely and data-driven response to the needs and challenges faced by refugees, asylum seekers and stateless persons quarterly factsheets and an interactive dashboard have been developed and are regularly updated.
