Situation Overview

In July 2025, the refugee population in the DRC decreased slightly from **515,084** to **515,846**, representing a **0.24%** drop compared to the june figure. This decline is mainly due to the repatriation of Central African and Burundian refugees.

The number of asylum seekers also slightly decreased, from **1550** to **1535,** due to the reguralization of the status of some individuals, particularly among the Central African refugees in Modale who were granted refugee status. The number of people restttled in 2025 remains unchanged(**5** people). Additionnally, 9 Congolese returnees(former refugees) came back from Cameroon, Eswatini and South Africa.
