OVERVIEW

2025 Q3 WaSH sector dashboard summarizes the progress made by WaSH sector partners involved in the Lebanon Response Plan (LRP). The WaSH sector in Lebanon is working to:

Outcome 1: Strengthen national, regional and local public institutions' capacities to deliver improved public policies, goods and services (water and sanitation).

Outcome 2: More vulnerable people in Lebanon are using safely managed drinking water and sanitation services whilst reducing health and environmental risks and improving water quality by increasing the proportion of wastewater that is safely treated.

This dashboard is based on information reported by WaSH sector partners operating under the sector strategy discussed with and endorsed by the Ministry of Energy and Water

Drought Vulnerability Map of Lebanon Cadasters by their drought risk score (July 2025)

SECTOR RESPONSE PER INDICATOR

TOTAL PEOPLE ASSISTED WITH PERMANENT IMPROVED ACCESS TO SAFELY MANAGED WASTEWATER SERVICES
