Notes:

- This matrix is based on the most recent and accurate data available at the time of publication.
- Global Acute Malnutrition rate (GAM) and Severe Acute Malnutrition rate (SAM) are based on screening . A SMART nutritional survey is ongoing with partners (UNHCR, UNICEF, WFP, Institut National des Statistiques / Gouvernement).
- The launch of a coupon-based food distribution in Mangaize camp brings a diversification of the diet at the household level. View the variety of stuffs, a new system must be established to calculate the calories and nutrients
- OXFAM, World Vision and Qatar Red Crescent are constructing a total number of 690 latrines for improving the number of persons per latrines in the camps,
- Qatar Red Crescent plans to improve the capacity of water production and distribution in the camps
