PUBLIC HEALTH—Nyarugusu Camp

UJUMBE MUHIMU WA AFYA

- Huduma za afya zinatolewa bure kwa watu wote
- Ukiugua unapaswa kwenda kituo cha afya haraka iwezekanavyo
- Vyanzo vikuu vya vifo kama Malaria, Magonjwa ya Kuharisha na Uambukizo Katika mfumo wa hewa yanatibika, ila unashauriwa kupata tiba mapema
- Kipindupindu kinazuilika kwa kuzingatia usafi kwa ujumla, pamoja na usafi binafsi (kusafisha mikono...)
- Kulala ndani ya chandarua kunapunguza hatari ya maambukizi ya uganjiwa wa malaria
- Wahamasishaji na watoa elimu ya afya na usafi wapo kambini kuwaelimisha na kuwapa maelezo zaidi

KEY MESSAGES ON HEALTH

- Health care is free and for all
- When you are sick, you should go to the health centre/post as soon as possible
- Main causes of mortality such as malaria, diarrheal diseases and respiratory tract infections are CURABLE but you should go on time to seek care
- Cholera is preventable by observing basic hygiene measures, including personal hygiene (washing hands...)
- Sleeping under the mosquito net reduces the risk of malaria
- Hygiene promoters and Health Information Team are present in the camp to provide you more information

AMAKURU ASOBANURA UBUZIMA

- Infashanyo z'ubuzima zitangwa kubuntu kubantu bose
- Ni waba ugwaye ukeneye kuja mubitaro muvyihutiwe
- Impamvu zozimiza ubuzima nkakarolero kingwara za malaria, guhitwamo n'ibibuza umuntu guhemuka neza zirashobora kuvugwa. Ariko ukeneye kuja kwa muganga muvyihutiwe
- Ingwara ya cholera urashobora kuyikingira witaweho ivyisuku kwa buri muntu (gukaraba amaboko...)
- Kudyama mumsegetera kurakingirira ingwara yimalaria
- Abajejwe vyi suku n'abatanga amakuru y'ubuzima bariho munkambi kugirango bagusohoreze ayo makuru

MESSAGES CLEFS SUR LA SANTE

- Les soins de santé sont gratuits et pour tous
- Lorsque vous êtes malade, vous devez vous rendre le plus rapidement possible dans un centre/poste de santé
- Les principales causes de mortalité telles que la malaria, les maladies diarrhéiques et les infections respiratoires sont CURABLES mais vous devez vous faire soigner à temps
- Le choléra peut être évité, si vous observez des mesures d'hygiène basiques (se laver les mains...)
- Dormir sous une moustiquaire réduit le risque de contracter la malaria
- Les mobilisateurs d'hygiène et les Equipes d'Informations Médicales sont présents dans le camp pour vous fournir des informations
