- WFP started distributing food vouchers in the North targeting villages in Wadi Khaled and Akkar.

Protection / Numbers

- **Registration:** The opening of the new central registration facility in Tripoli follows an information campaign to encourage people to register. Many displaced Syrians have been reluctant to register. While refugees are receiving some humanitarian assistance pending registration, registration is critical to receive medical care and to enroll children in Lebanese public schools. Registration also continues in the Bekaa valley and Beirut, with 37,240 people registered nationwide to date. A further 9,432 people have contacted UNHCR to be registered.
- **Education:** 'Back to School' initiatives are encouraging Syrian children to enroll in school for the upcoming academic year of 2012. Before the summer break some 1,200 Syrian children were studying in schools in the North of Lebanon, and it is estimated that another 3,000 to 4,000 children enter the system in September following registration.

- **Food Assistance:** WFP started distributing food vouchers in the North targeting villages in Wadi Khaled and Akkar. Assessments are ongoing to identify suitable grocery shops in Tripoli to install the food voucher system there.
- **Health:** MSF is coordinating with education actors in the Bekaa to vaccinate children attending remedial classes. WHO is also launching health awareness campaigns on the importance of vaccinations.
