

TARGETS

As specified in RRP5

300,000 persons

Increase absorption capacity in camps by

8,160 dwellings

repair or rehabilitate in urban areas

65,066 shelter

plots developed in camps

69,242 tents

distributed to new arrivals

27,637 pre-fabs

distributed to refugees

Current Planning Figures

515,013

Total Person of Concern
1st September 2013

197 million

USD required budget

NEEDS

In the original RR5 planning, some one million Syrians are expected to seek refuge in Jordan by the end of 2013. Out of this, it is assumed that around 700,000 refugees (roughly two-thirds of the overall refugee population) will seek refuge in the urban and rural context while the remainder will be accommodated in camps. Currently there are 515,000 refugees registered in Jordan.

The humanitarian response mainly focused on providing emergency / transitional shelter, basic services and infrastructure in planned camps, on rehabilitation works in shared accommodations and on cash assistance for rent. By achieving this task, assistance ensured dignity, comfort and access to a minimum standard of living conditions. Activities included investment in land development, construction of basic infrastructure, distribution of materials for winterising shelter, replacement of damaged tents, allocation of prefabricated units, design and implementation of weather mitigating shelter solutions for extreme climate camp locations and improvement of sub standard dwellings in urban settings.

OBJECTIVE

Adequate shelter solutions are available for refugees from Syria and other displaced.

ACTION/OUTPUTS

- Ensure access to adequate space for transit centre works, for camp site development works, for construction of basic infrastructure and for implementation of essential community facilities.
- Syrian Refugees in camps and transit centres have access to adequate shelter guided by minimum humanitarian standards
- Camp management is assisted with maintenance and upgrading interventions for shelter and basic services provided for Syrians.
- Vulnerable Syrians outside of camps have access to adequate shelterpersons.

KEY AUGUST DEVELOPMENTS

- Shelter sector in discussion with camp co-ordination on how to introduce ventilation systems, to avoid harm from gases or fires from heating systems.
- A proposal has been tabled to map out informal (tented) settlements in urban areas.

ACHIEVEMENTS TO DATE

12,504,055 m2 of camp space developed in 2013.

35,857 shelter plots developed in camps

57,906 tents in camps provided: (529 for 2123 beneficiaries in August)

4 shelter units constructed or finished: 4 (4 in August)

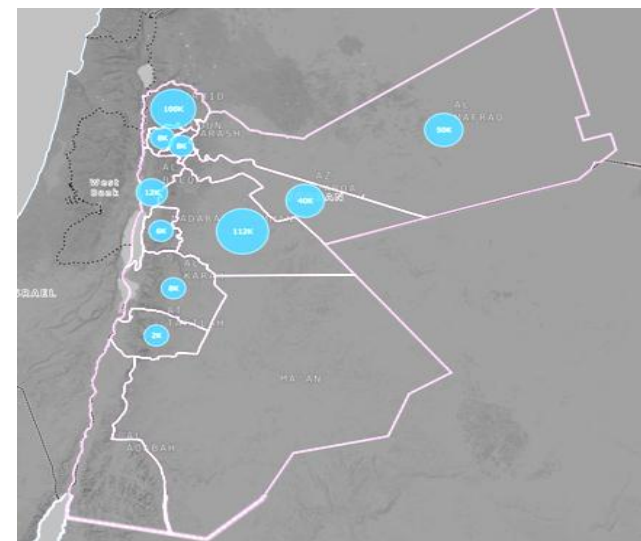

15,374 shelters in camps supported with winterization materials

12,327 prefabs distributed to refugees in camps.
