Ru'a Alabweh	UNHCR	alabweh@unhcr.org
Hugh Earp	NRC	hugh.earp@nrc.no
Amber Savage	CARE	amber.savage@jo.care.org

3.) Minutes

Item	Discussion
RRP6 progress	The RRP6 appeal has been shared with the regional coordinator and will be launched in mid-December. Following this there will be a protocol on agencies accessing the ActivityInfo. There will be no amendments to entries before the first review in the first quarter of 2014.
Endorsement of apportioned physical interventions	<p>Housing upgrade</p> <ul style="list-style-type: none"> • <u>Housing units upgrade output target: 27.5% of 36,000 vulnerable HHs in urban settings</u> • <u>Home adaptation output target: 37.5% of 36,000 vulnerable HHs in urban settings</u> • Upgrade through winterisation kits. We should standardise the price at US\$300-400 but may fluctuate on case by case basis. We should also link Volkers NFI guideline to standards. • CARE have developed a document in English and Arabic '<i>How to keep warm in the winter</i>' (See annex attached) but we need to have an assessment of the unit costs of equipment such as the mentioned insulation and sheeting. We need evidence to tailor a financial package. <p>Housing units increased</p> <ul style="list-style-type: none"> • <u>Housing units increased output target: 35% of 36,000 vulnerable HHs in urban settings</u> • This has the potential to have both negative and positive spill over impacts on the local community. <p>It would be helpful for the shelter WG to review the 3Ws matrix and they will be circulated with the MoM.</p>
Review of proposed guiding principles	<p>We need to standardise the following interventions in non-camp settings;</p> <ul style="list-style-type: none"> • Housing units upgrade – bathrooms, kitchens, insulation • Housing units increased – maintenance and repairs <p>This document should be prepared before the next WG meeting. Matthew Richard (UNHCR), Rua Al-Alabweh (UNHCR), Khaled Al-Khouz (IOM), Zaid Awamrh (PU-AMI), Celina Heleno (PU-AMI), and Emily Beadle (ACTED) have volunteered to work on this together.</p> <p>CARE have developed a similar guideline for winterisation which outlines information on how families can prepare their non-camp shelters for winter. It is intended to complement information being provided to families on the purchase of NFIs to ensure families are optimising their scarce resources. The list is prioritised with the most important area to address first and is in accordance with Sphere Standards and Global Shelter Cluster best practice.</p>
AOB	Kate Holland (ACTED) requested any information on informal settlements in Jordan.
