

RRP5 TARGET

(assumes 1 million refugees by end 2013)

 **300,000** refugees in camps with access to safe drinking water

 **300,000** refugees in camps with access to sanitation facilities

 **250,000** beneficiaries with improved access to WASH services in host communities

 **135,000** beneficiaries of WASH in schools, youth/child-friendly spaces and public places

 **550,000** beneficiaries of hygiene promotion and hygiene kits

Current Planning Figures

 **529,839** Total Persons of Concern as of 1 October 2013

 **137 M** USD required budget

NEEDS

Complete package of WASH services in camps. WASH services to refugees living in host communities according to the needs identified through a coordinated effort. Special emphasis would be on the needs of women, children, disabled and elderly. Priority will go to households living in temporary settlements, female-headed households and the needs of children, disabled and elderly.

Improving the water supply infrastructures for host communities with the largest concentrations of refugees will be another priority, critical to reduce tensions over water availability especially during the summer months. Schools in camps will be provided with WASH services, while schools with refugee children in host communities of Mafraq, Zarqa, Irbid, Maan and Amman Governorates will have improved WASH

OBJECTIVES (as per RRP5)

- 1 Ensure regular access for Syrian refugees living in camps to sufficient and safe drinking water; secure and clean sanitation and hygiene facilities which are culturally appropriate for both genders, giving consideration to those with special needs
- 2 Improve access to WASH services and facilities to vulnerable Syrians and urban and rural host communities
- 3 Rehabilitate and install gender appropriate water and sanitation facilities for boys and girls in schools,
- 4 Establish and maintain effective mechanisms for WASH coordination at national and sub-national levels

KEY NOVEMBER DEVELOPMENTS

Polio & WASH

UNICEF and WASH partners are supporting the polio prevention campaign through integrating messages emphasizing the importance of polio immunization and sanitation in their hygiene promotion activities.

Azraq Camp

In consultation with implementing partners, UNICEF is in the process of finalizing the installations of WASH structures. The partners have developed a contingency plan making it possible to have the camp facilities fully operational within two weeks' notice. With the already installed facilities, the camp can accommodate 30,000 refugees. Remaining funds will for the time being be reallocated for interventions in Za'atari camp and host community as prioritized by sector partners.

Za'atari Camp

Due to previous heavy rain in Za'atari during the beginning of November, 36 sewage tanks connected to WASH blocks were broken or had a potential to present a risk of overflowing. A contractor mobilized by UNICEF is in the process of repairing these tanks and so far around 67% of the tanks have been repaired. The hand-over of WASH facilities to the community led WASH committees is ongoing and the community mobilization and hygiene promotion is proceeding well throughout the camp.

ACHIEVEMENTS TO DATE

-  **510,000** beneficiaries connected to the water network
-  **122,017** beneficiaries of water trucking
-  **144,884** beneficiaries with access to adequate latrines
-  **122,017** beneficiaries with access to shower facilities
-  **201,920** beneficiaries reached through hygiene promotion
-  **122,017** beneficiaries with access to solid waste collection and disposal services
-  **21,000** beneficiaries of WASH in schools

WASH RESPONSE

Overall % of target achieved as per sectoral targets.
(Note : Total current refugee population figure is at 50% of target.)
