

### RRP5 TARGET

(assumes 1 million refugees by end 2013)

**600,000**  
Registered refugees expected to be living outside of camp in 2013

**75%**  
registered refugee population will be vulnerable

### Current Planning Figures

**576,354**  
Total Persons of Concern outside of camps as of 31 December 2013

**32,363**  
Syrian families who received financial assistance during 2013

**57 m**  
USD required budget

### NEEDS

Needs are calculated based exclusively on the number of registered Syrians as the registration process provides the minimum of data validity and integrity necessary for the cash activity. Out of the one million Syrians projected to be in Jordan by the end of 2013, some 700,000 are expected to be living outside of the camps. Of that number, around 600,000 will be registered by UNHCR.

The longer Syrians have to stay in Jordan, the less likely they will be able to make ends meet with assets they brought or, barring wider access to the labour market, income they may generate. New arrivals may have more urgent needs as the situation deteriorates further in Syria. Accordingly, it is expected that by the end of the year 75% of the registered Syrians outside the camps will be in need of some form of cash assistance, up from 60% at the beginning of the year.

### OBJECTIVES (as per RRP5)

Ensure that the basic household needs of extremely vulnerable Syrians living in urban and rural areas across Jordan are met through financial support.

### ACTION/OUTPUTS (as per RRP5)

- 1 Provision of urgent financial assistance
- 2 Regular financial assistance (unconditional)
- 3 Regular financial assistance (unconditional)
- 4 Seasonal support

### KEY DECEMBER DEVELOPMENTS

- *The Regional Response Plan (RRP6) was launched on 19 December 2013. The cash sector in Jordan, which is included in the regional livelihoods sectors, has shifted more than ever towards a rationale of compensating for lacking livelihoods. The total appeal of the cash sector in Jordan amounts to just under \$108m for 2014.*
- *Further to the Working Group's Strategy Workshop, a set of harmonized requirements and parameters were elaborated and endorsed (such as the minimum duration of regular cash assistance, the prescribed levels of assistance as well as the criteria for selection). This serves primarily a harmonized and compatible project formulation for the upcoming ECHO HIP, but is also a starting point for the process of further harmonization and integration of CWG partners in the first quarter of 2014.*
- *Coordination of winterization to refugees outside the camps (together with NFI working group) continued and a separate Winterization Dashboard is available on the portal ([data.unhcr.org/syrianrefugees](http://data.unhcr.org/syrianrefugees)). Additional cash assistance was mobilized and provided to victims of the snow storm in mid-December 2013.*

### ACHIEVEMENTS TO DATE - (December 2013)

- 20,404 (2,355 in December) families** receive urgent Cash Assistance (one-time) to address urgent vulnerability
- 38,118 (20,504 in December) families** receive regular cash assistance as a cash complement towards basic household needs (conditional)
- 140,511 (3,166 in December) families** receive regular cash assistance as a cash complement towards basic household needs (unconditional)
