	<ul style="list-style-type: none"> <li>▪ The report “Support to Host Communities and Public Institutions under the RRP6 for Lebanon” was issued by UNDP in collaboration with UNHCR. The Report provided evidence of the significant support to host communities and public institutions under the RRP6. It shows the links between the RRP6 and Track 1 and 11 of the National Stabilization Roadmap as well as to the future plans of the Lebanon Crisis Response Plan. It demonstrates the evolution of the humanitarian response to include a greater focus on host communities and public institutions particularly municipalities and strengthening the development oriented approach in a growing protracted situation</li> <li>▪ Many of the sector programs are linked to and embedded in national development plans such as the Reaching all Children with Education Strategy, the public health system primary health care program, the network of social development centers and the National Poverty Targeting Program, which are all key elements of Lebanon’s National Stabilization Roadmap Track 1 and 11. The 2014 RRP6 targeted approximately 25% or USD 399 million for stabilization aimed at 1.5 million Lebanese. The 2015 LCRP has targeted more specifically to reach 36.2% or USD 724 million of the appeal for 1.5 million vulnerable Lebanese</li> <li>▪ In 2014, USD 171.2 million equivalent to 19.6% of the resources mobilized under the RRP6 has been directed to host community and institutional support.
