### Notes:

- Distribution numbers are based on UNHCR Asylum-Seeker Certificate and were extracted from the winterization module on 12 Jan 2015
- Location data is based on the most recent UNHCR registration data and NOT the organizations distribution data
- The breakdown by assistance package does not include the UNICEF winterization package for non-camp refugees. The package does not feature in the module at present, but the delivery of an 18JD winterization supplement to 37,847 children was closely coordinated with the winterization task force.
- Some partners have opted to keep their winterization support anonymous for protection reasons
- Packages meeting or fulfilling the inter-agency minimum standard are highlighted in orange
- Duplicate families or families which have been inactivated since the distribution have not been discarded in this in order to reflect each organizations' efforts in urban areas
- On the other hand, families who have moved to camps since the distribution are not counted in this overview.
