86%

The campaign for 16 days of activism finished in all the refugee camps during the reporting period. All partners working in the camps are involved in the organization of the activities. During the campaign, different activities like awarenessraising on various issues, video shows, distribution of posters and brochures, exhibition, lectures on different topics, drawings, paintings, theatre performance and sports activities are organized. This campaign is combined with the child marriage campaign in all locations. UNHCR managed to include additional refugees into WFP voucher distribution list, based on protection concerns. UNHCR and Partners conducted FGDs on smuggling to Europe. Key messages to raise awareness on risks associated with smuggling were developed.

of individuals who receive food assistance in voucher

2,360

The introduction of targeting to camps around Iraq at the end of 2015 meant that the number of beneficiaries was substantially reduced in most camps. WFP was forced to introduce targeting in order to reach the most vulnerable beneficiaries with limited funding.

& (%) of children enrolled in school

1.138 (80%)

Supervisor taught full time as substitute teacher at the formal school for Basic Education. The head teachers in formal school asked partners to provide substitute teachers since they had a shortage of teaching staff. Delivery of educational and learning materials to all students and 20 kerosene lamps for the school.

cases and during emergency response, such as rain or fire. As a part of winter assistance (400 lit. of kersone/family/ season), families living in the camp received 240 lit. of kerosene and kerosene jerry cans. The remaining 160 lit. will be distributed in January and February 2016 and about 1,200 needs assessed families received plastic sheets, stoves and

	Liters of water/person/day: 20 (min. standard)	83	Persons per shower: <20 (min. standard)	7
•	Persons per latrine: <20 (min. standard)	6		

Average water supply decreased from the previous quarter due to the end of the hot summer season. Improvements to the water network in the temporary zone were finalised reducing water trucking to 6 m3/day. For Zone B permanent section, installation of an elevated water tank was completed and the water network is near completion. Installation of the sewerage system for 497 new plots continued, as did regular garbage collection, de-sludging, cleaning of communal latrines and cleaning campaigns. Regular hygiene promotion continued with all the camp residents, with cholera messaging prioritised and Global Hand Washing Day and World Toilet Day marked.
