

# February Statistical Dashboard

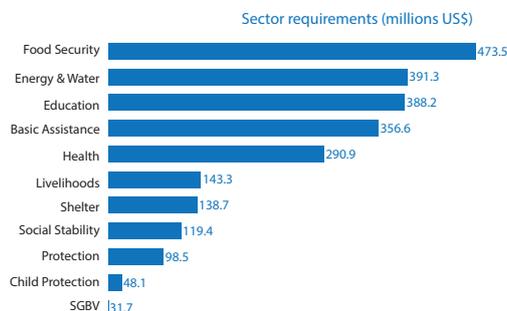

Inter-Agency  
Coordination  
Lebanon

The monthly dashboard summarizes the progress made by partners involved in the Lebanon Crisis Response and highlights trends affecting people in need. Partners in Lebanon are working to: 1) ensure humanitarian assistance and protection for the most vulnerable among the displaced from Syria and poorest Lebanese; 2) strengthen the capacity of national and local delivery systems to expand access to and quality of basic services; and 3) reinforce Lebanon's economic, social, institutional and environmental stability.

## HOUSEHOLD PROFILING

Vulnerability assessments conducted on an annual basis since 2013 show a continuous deterioration of the socio-economic situation of refugees. To inform the response, household assessment are conducted on a regular basis by 25 partners, who interview on average 10,000 households every month. The data collected through these assessments enables partners to tailor interventions based on needs. To date, around 50% of the total refugee population in Lebanon has been visited.
