UPDATE ON ACHIEVEMENTS

Operational Context

Discriminatory screening and denial of entry and exit to nationalities other than Syrian, Iraqi and Afghan became stricter once again, and only asylum seekers with a set of 3 documents - Greek registration document with a photograph, the new unified registration document issued in Macedonia and new "Personal Data of Migrant" form issued in Serbia - were allowed to enter the Republic of Croatia as of 24 February. In addition, as of 19 February, entry to Serbia has been denied to nationals of Afghanistan.

On 25th February, Slovenian Government informed its Croatian counterparts that no more than 500 refugees would be admitted on a daily basis.

Following the 24-hour legal gap between 24th and 25th February, due to the process of introduction of the new unified registration system between the three transit countries in the Balkans and technical difficulties with the registration in the same period, a number of refugees arrived in Šid from the border with Bulgaria without the necessary registration papers and were left stranded in Serbia, adding to the groups of refugees denied boarding the train bound to Croatia, all of which resulted in overcrowded conditions in the three refugee aid points in the Šid area.

The meeting focused on challenges faced by child protection actors in providing adequate support to unaccompanied minors, including the appointment of a legal guardian and entering into formal care.
- Field coordination meetings take place every week in Preševo (co-chaired by MoL & UNHCR) and Šid (co-chaired by SCRM & UNHCR).
- The monthly **Partners' Briefing**, where UNHCR/UNRC, Ministry of Foreign Affairs and MoL/Chair of Government WG on Mixed Migration update the diplomatic corps/donors and NGOs on the refugee/migrant situation and the response of UN agencies and their partners in the previous period, took place on 25 February in Belgrade.
