- The agency also works with the following implementing partners: the Norwegian Refugee Council (NRC), International Rescue Committee (IRC), Family Health Initiative (FHI 360), Benue State NGO Network (BENGONET), Justice Development and Peace Commission (JDPC), Nigerian Red Cross Society (NRCS), and RHEMA Care. In addition to co-leading the Protection Sector Working Group (PSWG) both at the national and sub-national levels, UNHCR actively participates in the Shelter/NFI/Camp Coordination and Camp Management Working Group, Child Protection Sub-Working Group, Sexual and Gender-Based Violence Sub-Working Group, Inter-Sector Working Group and Humanitarian Country Team.

MAIN ACTIVITIES

PROTECTION

- In the past few months there has been an intensification of terrorist attacks by Boko Haram in Nigeria and Cameroon, including directly in IDP camps. Measures have been taken to reinforce security in and around IDP camps.
- A total of 21,998 Nigerian returnees were officially registered at the Sahuda border post by UNHCR and partners.
- UNHCR's Assistant High Commissioner for Protection, Volker Turk, visited Nigeria from 18-22 February 2016, focusing on the insurgency-ravaged northeast. During his meetings with federal and state authorities, Mr. Türk stressed the necessity for Nigeria to further address the protection needs of IDPs particularly with respect to the voluntary character of returns and relocations. He also expressed the availability of UNHCR to work with the States in the facilitation of tripartite framework for the return and reintegration processes.
- UNHCR worked with IOM in Borno to prepare for biometric registration in ATC, in advance of their relocating IDPs from this camp to Bakassi on 1 March 2015.
- UNHCR provided 35 communal tents to SEMA in Gubio IDP camp in response to shelter demands perpetuated by the influx of displaced families from liberated areas, mainly Mafa into Maiduguri. The tents provided shelter to over 3,000 individuals who were initially sleeping in the open and living in dire conditions.
- UNHCR launched the planned shelter project in Adamawa state (Maiha) which includes the provision of 12 hectares of land for which compensation has been paid by the state government. The project was well received and lauded as a pilot which can be used as a model by the Early Recovery Working Group and the sector will support resource mobilization for the project.
