ACCESS TO HEALTH SERVICES

I am a Syrian refugee. Can I go to a doctor or a hospital in Lebanon?

Yes. UNHCR provides health care services to registered refugees through its partners.

Registered Syrian refugees can see a doctor at a **Primary Health Care Centre (“PHCc”) or a Health Centre (“dispensary”)** for medical consultations, prescriptions, laboratory tests, immunizations, antenatal care and other reproductive health services, management of chronic diseases. You can also receive mental health treatment, including counseling and other psychological support services.

You should only go to hospital in a medical emergency.

If you need to see a doctor you should go to the PHCc, dispensaries that are listed at the end of this brochure. If you go to another PHCc or dispensary they may charge you more for your treatment.

In a medical emergency, call MediVisa Lebanon **05-458558** (Monday to Friday 8am to 5pm & Saturday 8am to 1pm) or 03-261640/81-773207 if you are in Beirut or 03-416299/71-451217 if in Mt Lebanon (only after working hours, Sundays & public holidays). Other phone numbers listed in this brochure will give you information about health and social support, if you are a victim of sexual assault or violence or for any other emergency.

What if I am a not registered Syrian refugee?

Not registered Syrians have access to some subsidized health services and assistance at the PHCc listed in this brochure, for example free vaccinations for children. However, other PHCc or dispensaries may ask you equal contribution to health care treatment similar to Lebanese patients.

Is the Lebanese health system different from the Syrian health system?

Yes. The Lebanese health system is very different to the Syrian health system. It is highly privatized and registered Syrian refugees have to pay a contribution towards their health care, in the same way that Lebanese do.

IF YOU NEED TO SEE A DOCTOR

If you need to see a doctor, you should contact the PHCc or dispensary in advance to check if there is a doctor available that day and make an appointment. Check the list of PHCc or dispensaries below.

DOCTOR'S FEES

When you go to see a doctor at a PHC or a dispensary you will be charged between 3,000 LL – 5,000 LL for a consultation. UNHCR's partners pay the remainder of your consultation fees.

For laboratory and diagnostic tests, UNHCR covers up to 85% of the cost for children under 5 years old, elderly over 60 years old, pregnant women and other vulnerable individuals.

The remaining 15% of the cost must be paid by the patient. All other individuals are required to pay 100% of their medical costs. Please see the table below for more information.

Service	What you pay
Vaccines	Free at all PHC centers and dispensaries
Consultation	3,000 – 5,000 LBP
Acute medications	Free
Chronic medications (diabetes, cardiac conditions, hypertension, asthma, epilepsy, etc.)	1,000 LBP per visit (handling fee)
Family planning (Insertion of IUD, pills, condoms)	Free
2 ultrasounds for pregnant women	Free
Dental care	Subsidised. Please refer to the PHCc or dispensary for the exact costs.
Laboratory and diagnostic tests	<p>15% of the cost for</p> <ul style="list-style-type: none"> ▪ For children under 5 years ▪ Persons over 60 ▪ Persons with disabilities ▪ Pregnant women <p>10% of the cost for those refugees with specific needs who cannot afford it.</p> <p>Other refugees will pay 100% of the cost of Laboratory and diagnostic tests.</p>

IF YOU NEED TO GO TO HOSPITAL

What do I do if I need to go to hospital?

First, go to a PHCc or a dispensary before you go to hospital.

If a doctor in a PHCc or a dispensary recommends your admission to a hospital for inpatient care, you should obtain approval from **MediVisa Lebanon** which is UNHCR'S partner for Mount Lebanon and Beirut.

To obtain this approval you can go directly to their office which is located at Beirut Rafic Hariri University Governmental hospital.

In a life-threatening emergency go straight to one of the hospitals listed on the back of this leaflet and then call MediVisa Lebanon from the hospital, otherwise we cannot assist you financially with your medical bills.

MediVisa Lebanon 05-458558 (Monday to Friday 8am to 5pm & Saturday 8am to 1pm) or
03-261640/81-773207 if you are in Beirut,
Or 03-416299/71-451217 if in Mt Lebanon (only after working hours, Sundays & public holidays).

If I need to go to Hospital, will an ambulance take me?

The ambulance will take the patient to hospital only in life threatening situations or when the patient cannot travel in a seated position by car. The Lebanese Red Cross provides ambulance services in Lebanon. The number to call is three digits **140**

HOSPITAL FEES

Will UNHCR pay my hospital bill?

UNHCR pays up to 75% of the total cost of the following hospital services only:

- Life-saving emergencies
- Giving birth
- Care for newborn babies

You will have to pay the remaining 25% of the cost.

If you receive any other hospital service which is not approved by MediVisa, you will have to pay the total cost of your hospital bill.

If you need a very expensive hospital treatment, disc disease or elective medical interventions, UNHCR's Exceptional Care Committee must first approve treatment before it will agree to cover up to 75% of the cost.

The Committee will consider:

- The need for and adequacy of the suggested treatment
- The cost and the need for financial assistance
- Feasibility of the treatment plan and prognosis

You should go to the hospitals listed at the end of this brochure because you will have to pay more if you go to any other hospital. Remember to call MediVisa before admission to the hospital so we can assist you financially with your medical bills. We will not reimburse any payments you may have advanced.

DOCUMENTS TO TAKE WITH YOU TO THE DOCTOR OR TO THE HOSPITAL

- **A valid ID document OR**
- **Your UNHCR Registration Certificate ("UN Paper")**

PREGNANT WOMEN

I am pregnant. What services and assistance can I get?

You can get pregnancy care at PHCc and dispensaries as well as two free ultrasounds. You will be provided with supplements needed for your and your baby's health.

UNHCR covers up to 85% of the cost of laboratory, diagnostic tests and 4 consultations for pregnant women. You will also have access to breastfeeding and personal hygiene awareness sessions and access to free family planning services after you deliver your baby and one postnatal consultation. In addition, UNHCR will cover 75% of the cost of your delivery.

When you are pregnant and you approach the PHCc for consultation you will be provided with a **Pregnant Card**. You will have to **keep it with you each time you come for a doctor's visit and when you come to the hospital to deliver your baby.**

During your pregnancy the doctor will prescribe you some supplements like calcium and iron. Don't forget to take them for your health and the health of your baby! Continue to take them as long as you are breastfeeding your baby. You will also need to visit your PHCc or dispensary one month after you give birth for post natal care to ensure your wellbeing.

If you are pregnant, you should go to a PHCc at least 4 times before you give birth. You should go to the PHC that is closest to your address

CHRONIC DISEASES

Chronic disease such as diabetes, cardiac conditions, hypertension. Asthma, epilepsy, etc:

If you have a chronic disease such as diabetes, cardiac conditions, hypertension, asthma, epilepsy, you should go to see a doctor at a PHC or a dispensary for chronic disease control.

Locate a PHCc from YMCA network near you and register. Visit regularly and the health center will provide you with the necessary medication every month. This will manage your chronic condition and prevent further health consequences.

Chronic diseases such as cancer, thalassemia, etc:

UNHCR does not pay for chronic diseases that require repeated hospitalization, such as cancer, thalassemia or renal dialysis. If you have one of these conditions, you should go to see a Doctor at a PHCc or a dispensary to manage your condition.

In addition, UNHCR does not pay for the following treatments:

- High cost treatment when a less costly alternative treatment is equally effective and available
- Experimental, non-evidence based treatment
- Organ transplant
- Infertility treatment
- Cosmetic/plastic/reconstructive surgery

- Long term sustaining tertiary care such as treatment/rehabilitation of complications of chronic degenerative diseases, immunosuppressive treatment, new cases of haemodialysis (unless one time for life-saving), thalassemia treatment (except for life-saving blood transfusion), multiple sclerosis, etc.
- Conditions that can be treated at a PHCc or dispensary
- End-Mid stage cancer (including surgery and chemotherapy)
- Long term treatment requiring nursing care

PHYSICAL OR MENTAL DISABILITIES

I have a disabled child/family member. What kind of support and services are available?

Various community support services are available. Go to your nearest PHCc or dispensary for a consultation and for more information.

UNHCR and partners will pay 85% of the cost of laboratory and diagnostic tests for patients with physical or mental disabilities. The remaining 15% of the cost will be paid by the patient.

TUBERCULOSIS

I have Tuberculosis. What should I do?

You should attend a Centre for Tuberculosis treatment. Treatment is available for free. UNHCR's partners will support you for laboratory and diagnostic tests. Your family can also be tested for free.
