### NEEDS ANALYSIS:

The objective of the sector is to provide adequate and targeted shelter support to Syrian refugees living in camps and out of camp, in order to meet their shelter and settlement needs.

There is need to construct 3,733 new improved shelter plots in Gawilan, Kawergosk, Basirma and Qushtapa. Out of which construction of 2,528 improved plots is planned in 2016 subject to availability of fund. Moreover, even after completing the construction of improved shelter units that there is space for, a total of additional 568 shelter units will be required to accommodate all refugee families that currently live in Erbil camps.

Currently due to lack of funds and given that camps are priority the main focus of the shelter sector is the refugee camps. However, there are needs for the out of camp refugee population such as upgrading of dwellings, rental support and support to community infrastructure.

The assistance to out of camp refugee will be based on vulnerability of refugee families. The assistance will be provided in close consultation with local authority and on conditions that the landlord does not increase the rent and evict the refugee families. However there is limited fund available to support out of camp refugee families.
