50,636 WGBM with Improved management of Non-Communicable diseases available

## Key achievements

- Health Sector Working Group maintain its regular coordination forums during second quarter through main Health Sector Working Group (HSWG), Reproductive Health sub working group, Mental Health sub working group, Nutrition sub working group and Community Health taskforce. Field coordination maintained as well in the both camps (Azraq and Zatari) as well as Mafraq and Irbid.
- Maintain health services on the Jordanian Berm (Rukban area) through UN Joint clinic complex (UNHCR, UNFPA & UNICEF) through provision of primary health care , ante natal care , nutrition and IYCF, basic and emergency reproductive health, expanded program of immunization (EPI) and medical evacuation/ referrals.
- Jordan Humanitarian Fund (JHF) by OCHA has funded two health projects for Rehabilitation services and Cash for Health, the funded projects aim to improve and expand service coverage to bridge gaps in those two priority areas.

## Challenges faced during the reporting period

- ◇ increase number of war-wounded cases access Jordan territories for medical and acute stabilization due to deterioration of security situation in southwest and southeast of Syria. And ending of war wounded project supported by mainly QRC and OCHA.
- ◇ Improve access of Syrian on the Berm at Rukban area to access established health care services on the Jordan side.
- ◇ High demand on secondary and tertiary care including emergency life saving services for camp and non camp vulnerable refugees
- ◇ Increase demand on cash for health projects with 72 % of sector target achieved by mid year.

## Gaps and key priorities foreseen in the next quarter

### ◇ Gaps:

- increase demands on health services for acute war wounded due to increase number of cases access territories.
- increase demands on essential secondary health services
- lack of long term convalescence health services for survivors of war injuries.
- below optimal reporting on ongoing project on activity info database

### ◇ Key Priorities:

- Maintain essential level of services including medical stabilization for war-wounded acute cases.
- continue supporting cash based intervention that improve access to essential health services.
- Integrate IYCF interventions within primary health care services in Urban, Za'atari and Azraq camp.
- Finalize and activate the national reproductive health protocols.
- Expand immunization services on berm side through EPI and where possible through emergency vaccination campaign.
- Develop Jordan Response Plan (JRP) 2018/2020 health response chapter and endorse it to MOPIC
