

In May 2017, 3RP partners involved in 3RP response in Egypt have provided 10,738 curative and preventive Primary Healthcare consultations to Syrian girls, boys, women and men. Among those, 5,871 patients were followed up and received monthly treatment for their non-communicable diseases. Also among them, 1,517 under 5 girls and boys received routine immunization and growth monitoring services. Beyond the primary healthcare level, 495 referrals to secondary, tertiary and emergency care were provided to those in need among them 10 referrals were life-saving emergencies.

Within the resilience component, 90 primary healthcare facilities in Greater Cairo, Alexandria, received support while 15 nurses received training on family planning methods.

Note: These dashboards reflect the achievements for the 3RP partners including UN agencies, and NGOs involved in the 3RP response in Egypt. Progress and target may change in line with the data revisions. All data on this dashboard is current as at 31 May 2017.

\*\* \* All UNFPA indicators have Zero values due to unavailability of funds till the time of reporting.
