

This report is produced by the Shelter Sector Working Group in Jordan in response to the Syria crisis. It shows progresses in project implementation and funding status during the reporting period. It summarizes achievement and challenges and highlights foreseen needs for the next quarter. For the monthly update, please see the Monthly Sector Dashboard at <http://scs.raisunhcr.org/dashboards/Shelter.aspx>

Reporting and Monitoring Phase

Implementation of Inter-Agency Appeal in Support of Jordan Response Plan

Partners by Component

REFUGEE: 8 Partners, 10 Governorates
Locations: Zarq, Ajlun, Al Balqa, Amman, Aqaba, Irbid, Jerash, Karak, Mafraq and Zarqa Governorates

RESILIENCE: 1 Partner
Locations: Countrywide

Funding Status (Refugee component)

Requested: **\$51,430,683**
Received: **\$22,188,858**
Gap: **\$29,241,825**

Source : [Financial Tracking System](#)

Funding Status (Resilience component)

Requested: **\$1,512,000**
Received: **0**
Gap: **\$1,512,000**

Source : [Financial Tracking System](#)

Progress against Targets: Sector Priority Indicators

29,879 vulnerable Jordanians and Syrian refugee (WGBM) provided with shelter assistance in host community

4,465 Shelters have been constructed and upgraded in Azraq and Zaatari camps

Key achievements

- A total of 4,465 shelters were upgraded and repaired in Azraq and Zaatari camps.
- In Zaatari, UNHCR and NRC initiated the caravan repairs project which aims at supporting most vulnerable households with severely damaged caravans. Following the pilot, a camp wide assessment is planned to be undertaken in Q4 of 2017 informing the continuation of the project in 2018.
- Preparations for the winterization response in both camps are underway with plans for sealant and plastic sheet distributions to households and standby heavy machinery in the case of flooding.
- In urban area, by end of September a total of 18,366 Syrian refugee (women, girls, boys and men) benefited from cash for rent assistance in Host Community (HC). The sector will work closely with the actors in the Basic Needs sector to ensure that eviction referrals are supported either through emergency cash for rent through the shelter partners or through the winterization assistance.
- The Shelter Sector response plan has been updated for the third quarter, establishing new criteria of vulnerability and revamping sector projects particularly in the resilience response. The new strategy will be endorsed in Q4 with a projected total appeal of 85,000,000 USD over the next three years to address shelter vulnerabilities of the most in need.
- The UNHCR Site Planning (SP) unit continues the regular activity of maintaining and updating the CAD drawing of Zaatari's and Azraq's Master Plan, with all infrastructure as-built layers, House Hold (HH) address modifications, newly allocated service sites and any planned activities that would require land-use.

Challenges faced during the reporting period

- In Zaatari camp, it is noticed that agencies are not following the Site Allocation Standard Operating Procedures (SOPs) after the deactivation of some sites. UNHCR Tech Team is redoubling its efforts to identify these sites upon cessation of use, in order to keep track of the vacant service sites and to update the camp masterplan accordingly.

Gaps and key priorities foreseen in the next quarter

◇ Gaps:

- The Shelter Sector continues to be underfunded, greatly limiting the ability of the sector partners to deliver urgent needed assistance across Jordan mostly in host communities in Amman, Irbid and the South of Jordan. This translated into over 30,000 refugees and vulnerable Jordanians in need of assistance in the host communities not being reached.
- Lack of actors working on the upgrading of substandard housing in the governorate of Mafraq.

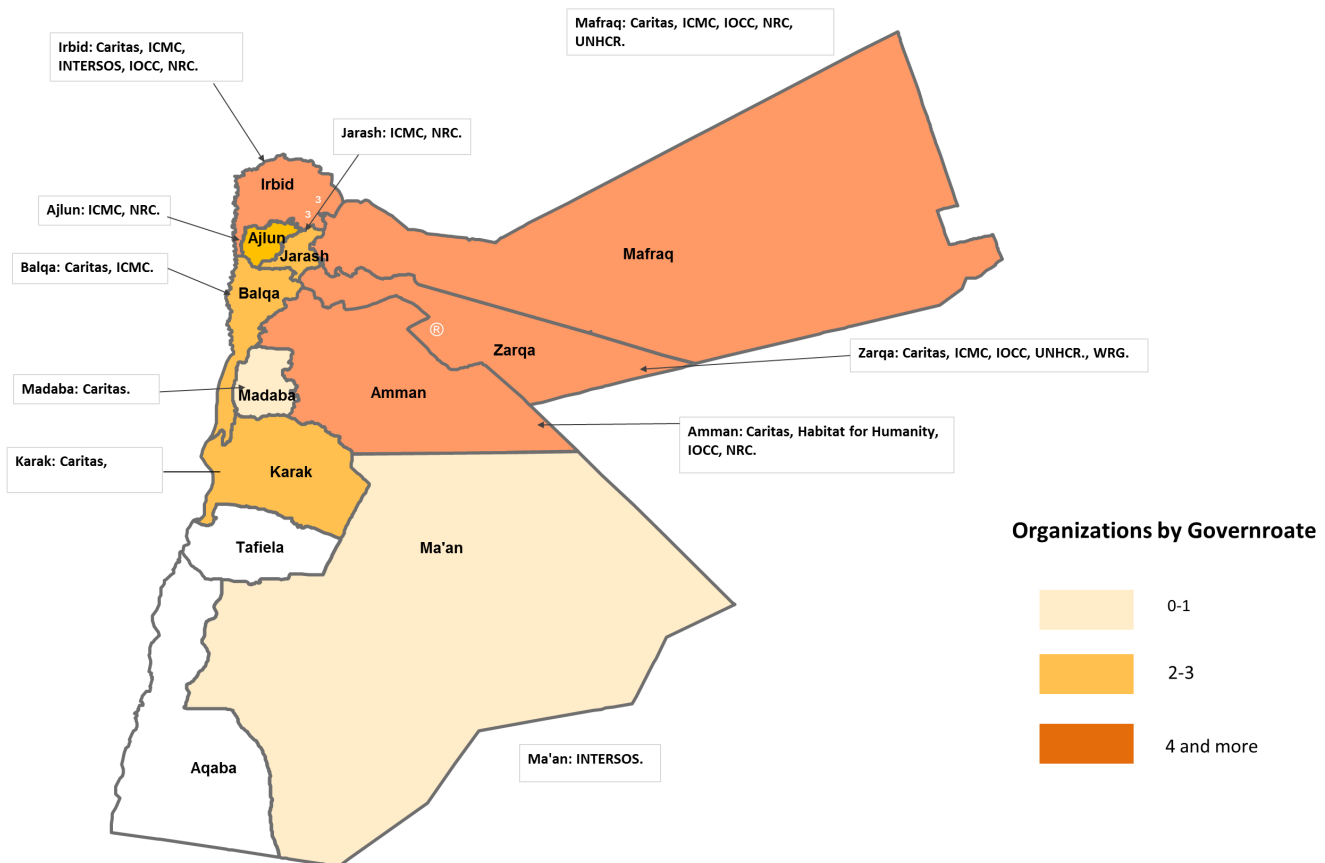

◇ Key Priorities:

- In Zaatari camp, UNHCR Site Planning will coordinate and supervise the necessary pre-winter infrastructure activities through NRC as implementing partner; the cleaning of culverts and reshaping/redirecting of open rainwater trenches.
- The scale up of the implementation of the caravan repair project in Zaatari
- Finalizing the update of the technical guidelines on the upgrading of substandard housing and the Housing, Land and Property (HLP) guidelines.
- Finalizing the housing market assessment for Jordan.

Organizations and coverage

The achievements described in this report are based on the inputs provided by the following organizations through the ActivityInfo database.

For more detailed information on the services provided by sector partners, please refer to the Services Advisor:
