

WASH/Shelter Referral Mechanism

Beirut – Mount Lebanon

UNHCR
The UN Refugee Agency

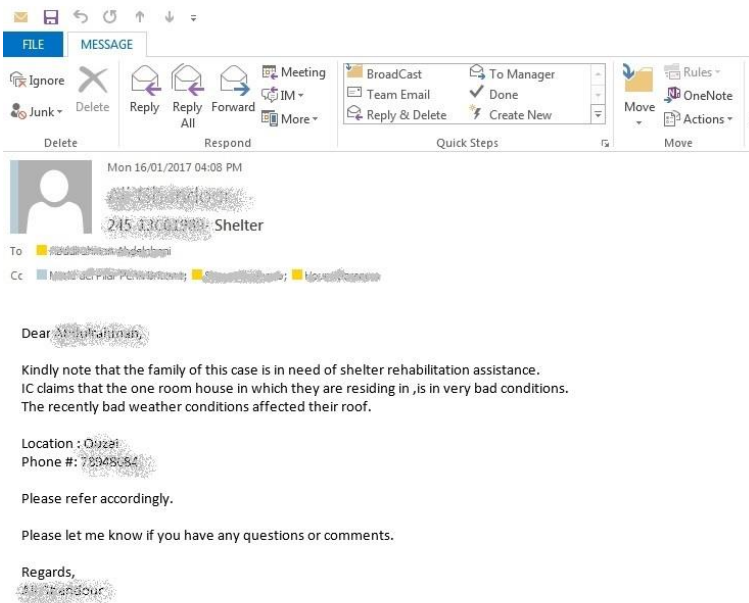

Referral Mechanism Steps:

Referrals are received on e-mail: lebmtws@unhcr.org

Referrals should have the following information

- Location/p-code/GPS coordinates
- Key informant/Shaweesh name & phone number
- Brief description of the case/issue referred
- Number of households/individuals affected

UNHCR
The UN Refugee Agency

Referral Mechanism Steps:

UNHCR WASH/Shelter Unit feeds the info to Google docs. The link:

<https://docs.google.com/spreadsheets/d/1jWADhzoHmKMT4F1hC8UyDOQbElgCDzyFkszl6amUGE/edit#gid=0>

What you will see on the Google Doc:

- Referral number
- Date of sharing the referral
- P-code (if available)
- Location
- GPS coordinates
- Shelter type (substandard bldg., informal settlements, collective shelter and large shelter buildings)
- Received from / referred to
- Description

Referral Mechanism Steps:

UNHCR WASH/Shelter Unit will copy the partner who is responsible to respond in the area/site/cadastral

UNHCR
The UN Refugee Agency

Referral Mechanism Steps:

WASH/Shelter Unit will follow up until referrals are completed and cases are closed.

- The organization who referred the case can check on a daily basis on the progress of referral
- The organization received the referral must describe clearly about the assistance received

Description Of Referral	Days Pending	Assistance Provided	Status of the referral (completed or ongoing)	Date Closed
The family is composed of 4 persons, parents and 2 children under the age of 5 years, they are living in Aley, literally in a basement where the landlord made in this basement a second floor divided into 2 rooms. They have to take the wooden ladder every time to go up or down and the 2 children aged 4 years and 2 years old are in danger and they are afraid that he will evict them from the	0	We visited the family in Aley on Friday Aug 5, 2016. The family is living in a second floor of a warehouse and they climb a wooden ladder to reach their shelter (like an attic fo 2 rooms space). They don't pay rent and don't want us to talk to the land lord, because they are	Completed	8/5/2016
"Mohamad Khaled Mehtar" is residing in Aramoun, Mount Lebanon and was visited by UNHCR BO partners 5 months ago. The POC claimed that the partners promised to rehabilitate his house 5 months to no avail and he is still living	0	The family is not eligible they are least Socio and least shelter	Completed	8/9/2016
The tents' sides and roofs are made up of nylon which leaks water during winter and heavy snow adds a lot of pressure on the roof thus threatening its collapse. Some have wood plates which help a bit with the leakage, but it's not enough and others do not.	-178	The IS is assessed and they will be supported with SOK Kits next month.	ongoing	
15/08/2016; a fire broke out in 4 tents at Choueifat Ghandour ITS (33.80981 35.51099), no injuries were sustained; however, all the furniture and legal papers were burned. The families are requesting 4 NAK's to replace the tents that were burned	0	CHF distributed 4NAKs to the families on 17/8/2016	Completed	8/17/2016
A substandard unit that requires a shelter assessment for a possible rehabilitation intervention. Details shared via email.		CHF assessed the house there is water leakage from one wall Because it is below the level of the ground. Moreover, part of the ceiling is concrete and the other part is TOT. The cost of rehabilitation is very high. We asked the family if they like to move to another place.
