4. Overview of the Theory of Change

Call for Proposals: Objectives

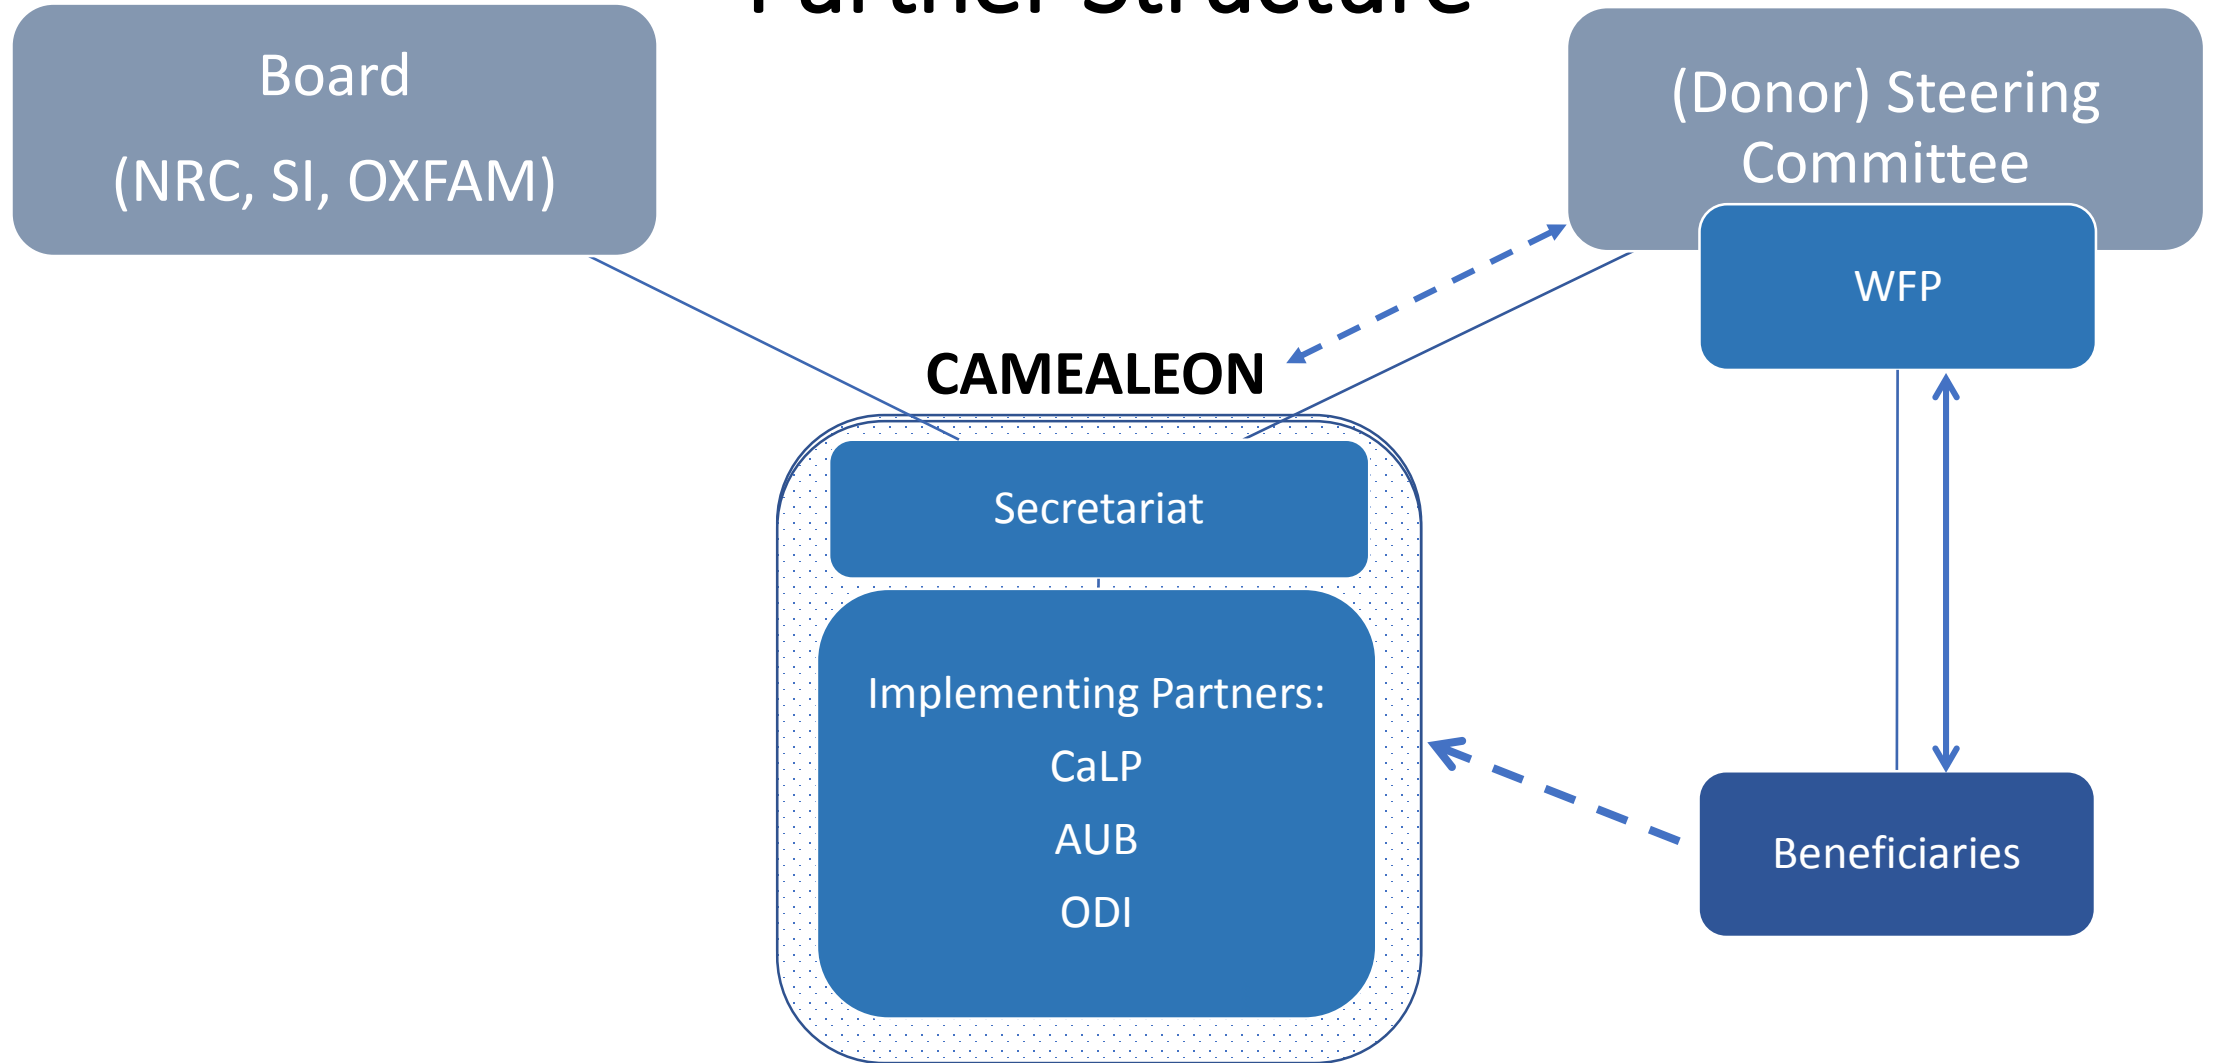

1. Monitoring and evaluating multi-sector outcomes of unrestricted cash (e.g., well-being)
2. Achieving greater transparency in costs so that the **Value for Money (VfM) of large-scale unrestricted cash assistance** in protracted crisis can be maximized.
3. Generating learning for programme adaptation and particularly for **adaptation towards a social safety net approach** (e.g., targeting, needs assessment and transfer value determination)

NB: Independent MEAL does not replace regular process monitoring.

Project Aims

- **Aim:** To reinforcing the quality, value for money and accountability of multi-purpose cash programming in Lebanon and globally.
- **Objective:** to strengthen effectiveness, efficiency, accountability and learning of WFP's unrestricted cash transfer programme in Lebanon.
- **Specific objective:** to provide information, recommendations, and learning to support the Steering Committee to help ensure programme quality of WFP's MPC programming in Lebanon.

Partner Structure

OUTPUT 1: multi-sector (holistic) outcome monitoring

- **Results Framework and M&E Plan**

- Examine MPC outcomes - quality of life, cash utilisation, VfM outputs, and research results
- Forms the basis to improve the system that tracks, and measures MPC.
- Guides the operationalisation of outcome analysis and frames the recommendations to the Steering Committee

- **Baseline, Midline, Endline (panel data approach)**

- Compares multi-sectoral impact of unrestricted cash over a two-year period
- Evaluates intra-household dynamics and decision-making with regards to expenditures
- Measures impact of unrestricted cash on refugee welfare
- Assess access to services and other safety nets

- **Field Coordination activities**

- TBC

OUTPUT 2: Undertake periodic value for money (VfM) analysis

- **Development of VfM Framework**

- Literature review: compilation and outline of different metrics, methods and models through which to study VfM – includes an information gap analysis on humanitarian as well as longer term social protection/safety nets.

- **Development of the VfM study**

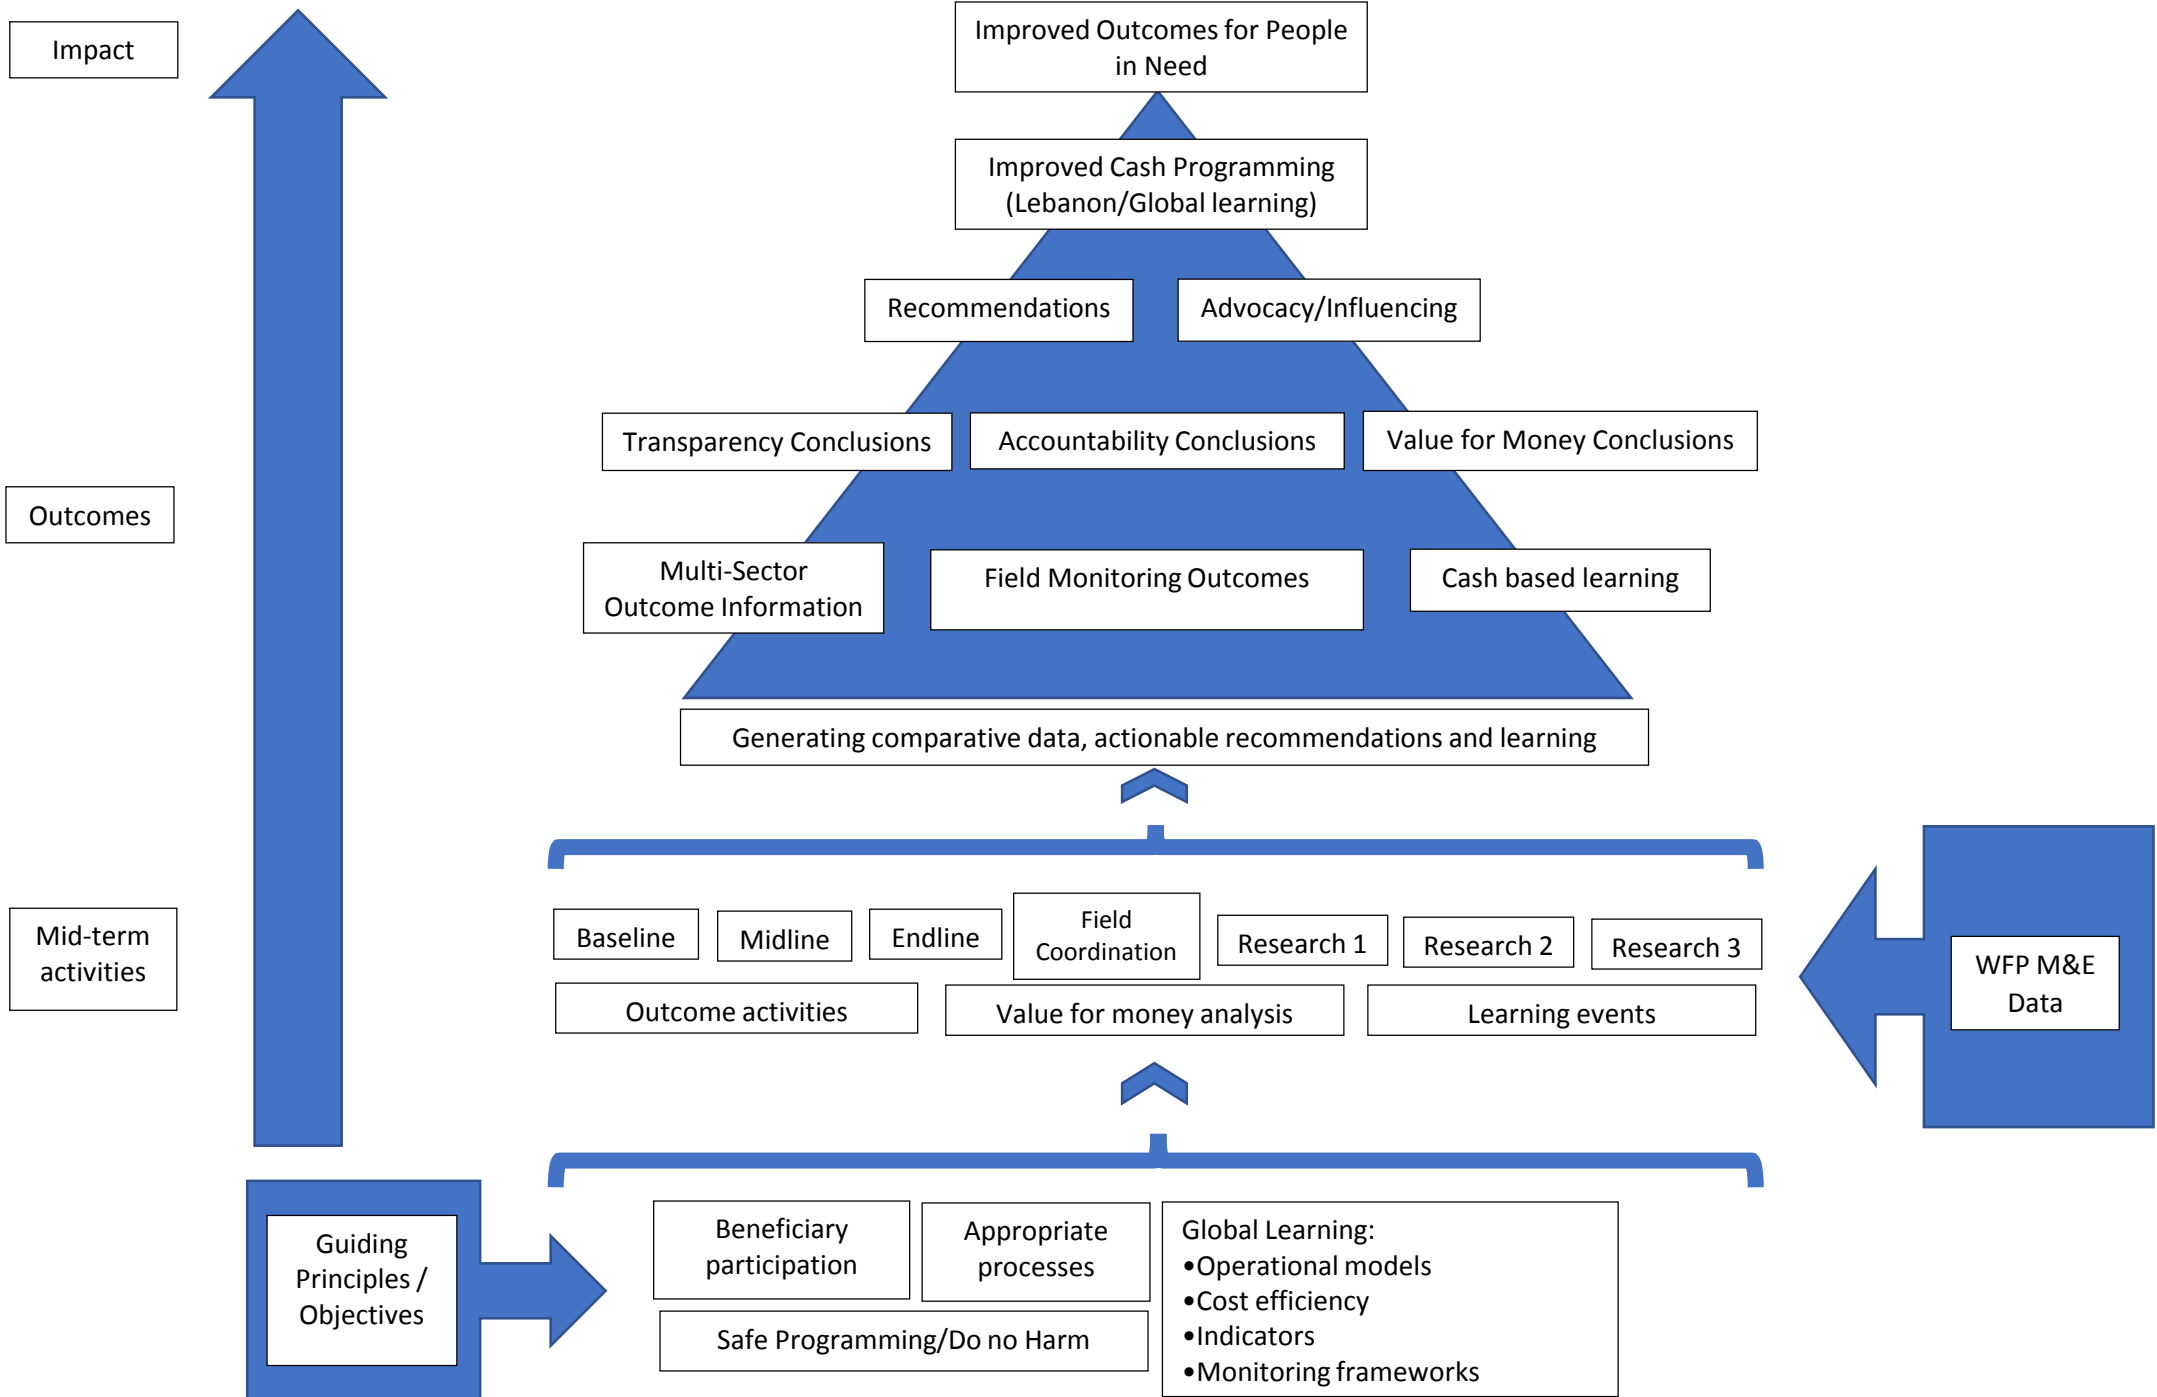

- The precise scope of the VfM analysis will be agreed with the Steering Committee following the literature review and gap analysis

- **Value for money analysis**

- Provides the Steering Committee with periodic VfM analysis. The precise timing and topics covered in these analyses will be delineated under Activity 1.1

OUTPUT 3: Generate evidence based learning and actionable recommendations for programme adaptation

- **Conducting research (3 pieces)**
 - Topics still under discussion, but with the objective of furthering learning within Lebanon and globally, and to contribute to recommendations made to the Steering Committee.
- **Operational knowledge building and learning activities (3 events)**
 - Organize knowledge building events in Lebanon to contribute to wider learning and practice.

Thank you
