Achievements: Narrative

Contribution of Malaria, RTIs and Watery diarrhea to the general consultations for week 3

OPD Consultations:

During the reporting period, a total of 6,995 OPD consultations were made compared to 7,372 reported the previous week.

The leading causes of illness (proportional morbidity) were Acute Respiratory Tract Infections/RTI (23.4%), malaria (21%) followed by Watery Diarrhoea/WD (6.7%); this implies that the three top disease conditions contributed at least 51% of the total morbidity for reporting week.

The incidences for malaria, RTI and watery diarrhoea this week are estimated at 7, 7 and 2 cases/1,000 persons/week respectively.

One cases of Dysentery was reported while none for Typhoid.

▪ **Mortality and Morbidity:**

A total of nine (9) deaths (5 F; 4 M), including four (4) below the age of five were registered and three (3) elderly persons above 60 years (4- *Public Referral Health Facilities*; 3 *Settlement Facilities*; 2- *Community*). Probable causes of deaths were as follows: Tuberculosis (2), Heart Failure (1), Malaria (1), Neonatal Sepsis (1), Suspected VHF (1), Congenital abnormality (1) and Non-confirmed (2).

The Crude Mortality Rate (CMR) and Under 5 mortality rates are estimated at 0.05 and 0.1 deaths/10,000/day respectively, which are both below the emergency threshold of 1 and 2 deaths/10,000/day respectively.

▪ **Mental Health and Psychosocial Support:**

Total number of consultations during the week were 178 (71 new cases and 107 revisits). Consultations were made for Epilepsy (137), Depression (21), Psychosis (14) and Drug abuse (9). One suicide attempt was reported in Bangatuti.

▪ **Reproductive Health, HIV/AIDS:**

Total for ANC 1 was 190, ANC 4 was 94 and PNC was 199, while 91 deliveries were conducted (with 18 deliveries by nationals). Two hundred and three (203) mothers were tested during ANC; One tested positive and was initiated on ART. The Number of new clients enrolled on ART during this week is 4.

▪ **Expanded program for immunization, Vitamin A supplementation and deworming:**

A total of 192 doses of DPT III, 192 doses of PCV3; 154 doses of measles and 144 doses of BCG were administered to children in the settlement; 421 doses of vitamin A supplements and 581 doses of deworming tablets were also given.

▪ **General updates**

- One suspected case of VHF in Iyete HC III, Standard Precautions were observed; Results received from UVRI on 22nd January 2018 ruled out VHF.

@Supervised burial of a suspected VHF case by Arua EPR team, Iyete, Bidibidi
