MAIN ACTIVITIES

Health

- One Permanent and one temporary structures are available for refugees and host communities wherein they receive outpatient and inpatient medical care, including:
 - Reproductive health & HIV services and related capacity building
 - Preventive and community-based health care and access to primary health care services
 - Vaccination
 - Maternity and child health services
 - Pre-departure medical screening/Medical escorts during RST and during relocation from boarder areas
 - Psychosocial counseling

Nutrition

- With support from UNHCR's partners, refugees have access to infrastructure and receive nutritional support, including:
 - Implementation and monitoring of Supplementary Feeding Programme (SFP) for persons with special needs
 - Treatment of severe and moderate acute malnutrition

WASH

- Refugees have access to 13 liters of potable water per person per day from 4 boreholes, of which one is not functional due to its high iron content
- 1,190 household sanitary facilities/latrines are available in the camp and are regularly maintained
- Environmental health and hygiene campaigns are implemented in the camp

Protection & Community Services

- UNHCR and its partners provide protection to refugees and promote durable solutions to their plight through:
 - Establishment and ensured functioning of community-based child protection structures, notably for UASC
 - Provision of prevention and response services for children at risk, and capacity development on child protection
 - Provision of psychosocial counseling and community-based psychosocial programming
 - Enabling and sustaining community participation in SGBV prevention and response through capacity development
 - Provision of specific services to Persons with Disabilities (PWDs)
 - Resettlement to third country of asylum and facilitated process of family reunification
 - Registration and monitoring

Shelter

- 1,333 permanent shelters available in the camp and are regularly maintained.36 emergency shelters built since new influx.

Core Relief Items

- Core Relief Items – Blankets, sleeping mats, kitchen sets, soap, Jerri cans, plastic buckets and sanitary materials - are distributed to refugees.

Logistics & Site Planning

- Refugees are transported and relocated from border areas and within camps. In addition, the camp layout is conducted. The Hitsats refugee camp is comprised of 4 Zones divided in 15 blocks and 45 sectors.

Education

- One early childhood, one primary, schools are available, wherein school meals, and vocational skills training for the youth are provided. The construction of the secondary school is completed.

Environment

- UNHCR and its partners seek to reduce the environmental impact in areas hosting refugees through:
 - Forest and environmental protection and capacity building on environmental protection. 56,000 trees have been planted to mitigate the impact of the refugees' presence in the area.
 - Provision of energy saving stoves and demonstration of biogas pilot project. To date, 1,200 stoves have been distributed.

Food

- On a monthly basis, food is supplied, transported and distributed to all refugees as well as cash and vouchers. General food basket comprises Wheat grain, Pulse, CSB, vegetable oil, Sugar, Salt and Cash ETB 60.00
