- Dashboards
- Calenders of events/meetings

A screenshot of the Syria Regional Refugee Response Data Portal. The header is green with the text "Syria Regional Refugee Response Inter-agency Information Sharing Portal" and navigation links for "EN FR AR". Below the header is a grey navigation bar with "Regional Overview", "Lebanon", "Select a Location", "Partner List", and "Latest Documents". The main content area shows a map of Syria with several locations circled in black: Baalbek, Zahle, Saida, Nabatiya et Ajlun, Al Qunaytirah, Douma, and Damascus. The footer of the map area contains the text "nt or acceptance by the United Nations".

UNHCR refugee population maps

- Refugee population by cadastral

1 Data Portal (Information Sharing Portal)

“251 Most Vulnerable Cadastrals”, March 2015

Calculation of the Most Vulnerable Localities is based on the following datasets:

1 - Multi-Deprivation Index (MDI)

The MDI is a composite index, based on deprivation level scoring of households in five critical dimensions:

- i - Access to Health services;
- ii - Income levels;
- iii - Access to Education services;
- iv - Access to Water and Sanitation services;
- v - Housing conditions;

MDI is from CAS, UNDP and MoSA Living Conditions and Household Budget Survey conducted in 2004.

2 - Lebanese population dataset

Lebanese population data is based on CDR 2002

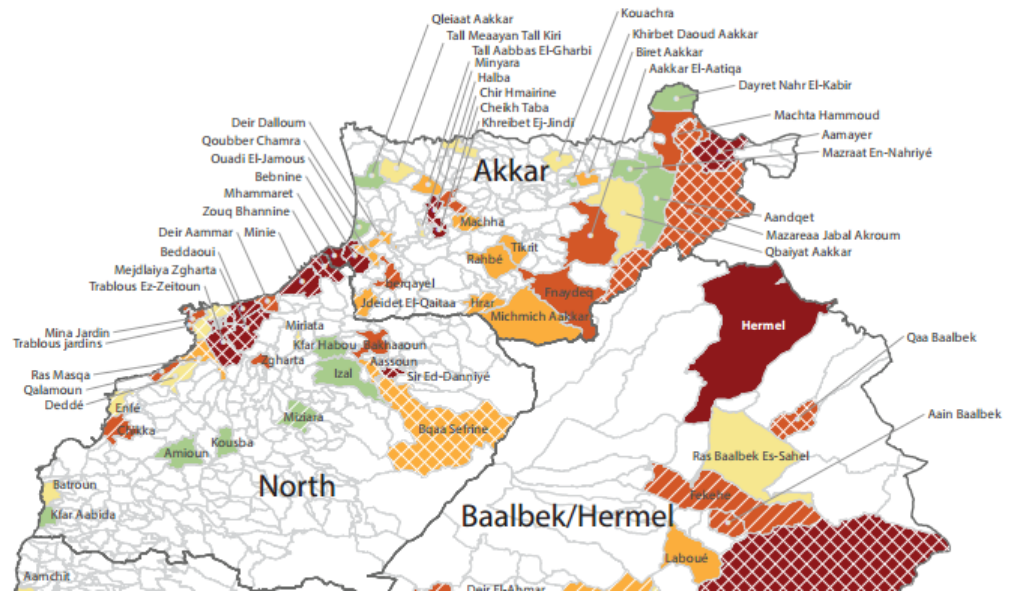

3 - Refugee population figures

The refugee population includes all registered Syrian refugees, PRL and PRS. Syrian refugee data is based on UNHCR registration database as of November 2014 and Palestine refugees data is based on 270,000 AUB/UNRWA figure (PRL as of 2011 and PRS 2014).

251 Most Vulnerable Cadastres

87% Refugees

67% Deprived Lebanese

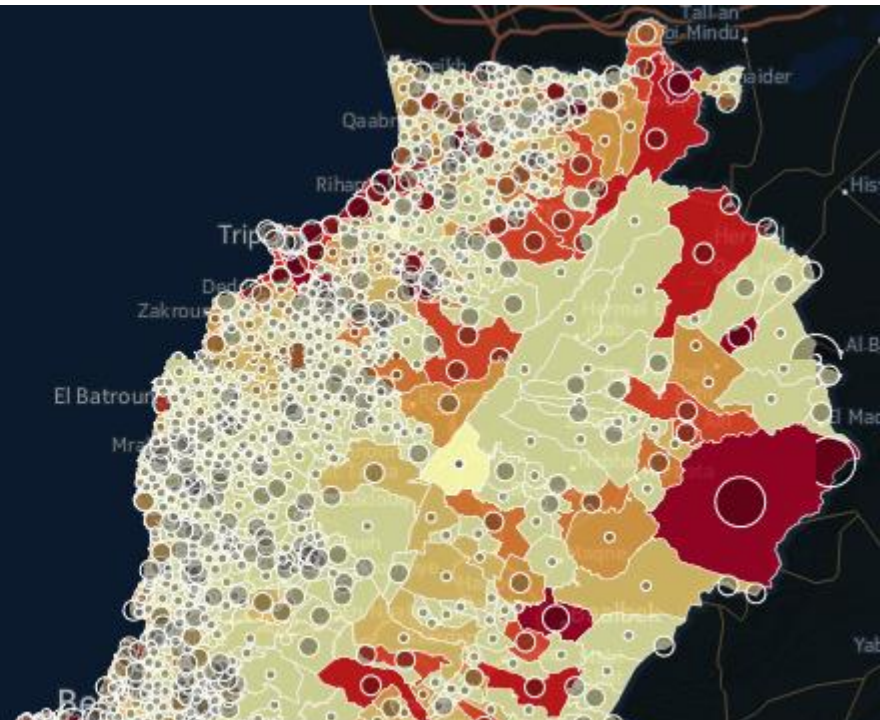

2

Map Hub

Lebanon **Map Hub** is the go-to place for dynamic maps related to the Syria Crisis Response in Lebanon; it hosts various thematic maps that highlight particular issues like economic vulnerabilities or out of schools children

Priority Areas for Household Visits.
As of 31 March 2016

2

Map Hub: Fundamental Operational Data Sets (FODs)

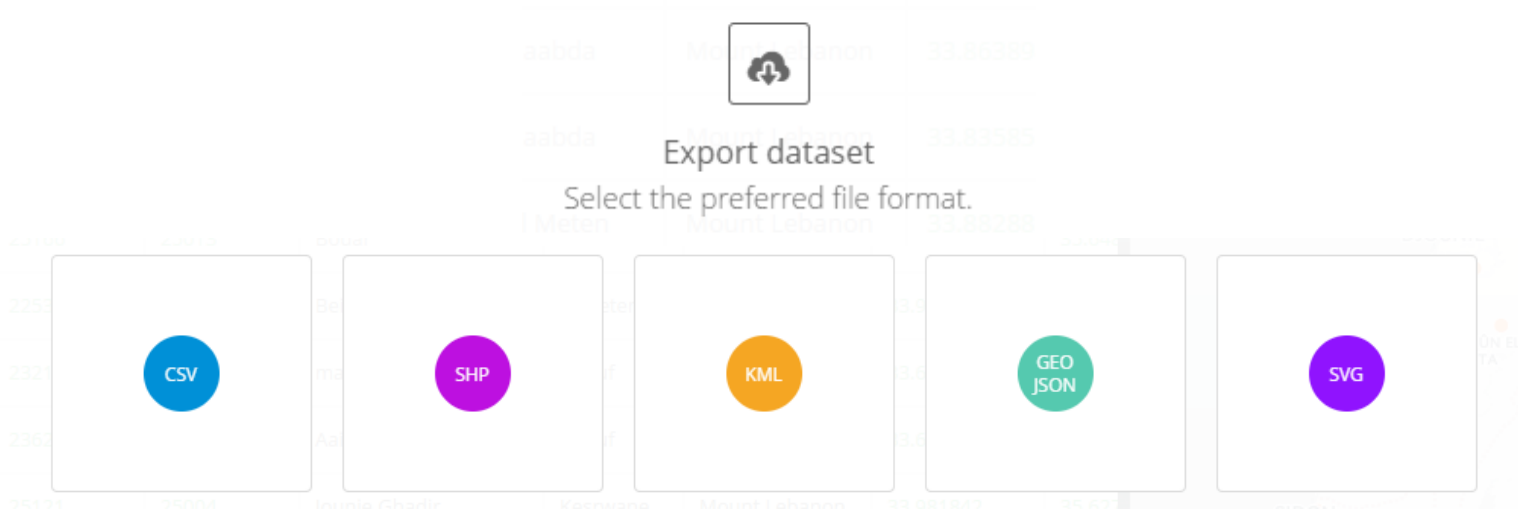

Dataset	Data source	Updates
Municipalities	Minister of Interior	As per updates from Minister of Interior
Localities	Partners	As per updates for missing locations from partners
SDCs	MoSA	As per updated list shared by MoSA
Hospitals (SHCs)	Health sector	As per updates on new contracted hospitals from Health sector
PHCs	MoPH	As per updates on new sites from MoPH and partners
Schools	MEHE	As per updates on new schools from MEHE

2 Map Hub: Fundamental Operational Data Sets (FODs)

Dataset	Data source	Frequency
Informal settlements	IAMP project	Updated data released every month; full sweep every 3 months (each sweep includes 3-4 additional indicators e.g. Access to healthcare)
Collective shelters	Partners	As per updates from partners in the field

3

ActivityInfo

ActivityInfo is an open source tool for planning and reporting on aggregated activities for all sectors and agencies in the Lebanon operation. The tool facilitates coordination through the tracking of various agencies' activities across the country as well as the identification of gaps.

Assessment Registry

The Assessment Registry is an online repository of on-going and past assessments in Lebanon

Assessment Registry Form

- Allows you to submit a new assessment to be added to the Assessment Registry

List of all registered assessments

- Facilitates management and utilization of existing information
- Decreases duplication of assessments across the response

7 Factbook

Factbook is a searchable repository of interesting facts and figures related to the response. For example, search for “poverty” and you get all facts related to that subject.

Spongebase

Spongebase is an online dynamic map that allows for the aggregation of LCRP partner reporting at different geographical levels:

1. It collects data from ActivityInfo, RAIS and the Informal Settlements Mapping exercise;
2. It allows for the download of data as an excel spreadsheet;
3. Geographical levels (municipality, cadasters) within Spongebase are created with boundaries, except for villages. You can click on a district or municipality to see reports in that location or and all reports for a specific partner or activity by typing in the search box (e.g. "weatherproofing" or "NRC").
