

## **SERBIA UPDATE**

- On 21 May, three young men from Afghanistan and one from Pakistan were found in critical condition at a
  parking lot near Novi Sad, after they had spent several hours in a sealed gas tank, at temperature above 60
  degrees Celsius. Presumably, they tried to hide in the truck to clandestinely enter Croatia. Although they were
  immediately transferred to the Clinical Centre in Novi Sad, three passed away, including a 16 year old
  unaccompanied boy from Afghanistan. Families, friends and authorities cooperated in organizing the
  repatriation of their bodies to Afghanistan for burial. The fourth victim remains in critical condition in hospital.
- The Asylum Office (AO) of the Ministry of Interior ruled on 10 applications for asylum, granting protection to four persons and rejecting six. Thus far in 2019, the AO recognised the protection needs of 26 asylum seekers, including five cases with LGBTI claims and one UASC, granting 12 refugee and 14 subsidiary protection status. UNHCR legal partner Belgrade Centre for Human Rights (BCHR) published its <u>Right to Asylum in the Republic of Serbia Periodic Report for January–March 2019</u>.

   366 were accommodated in Asylum Centres (AC) of which 342 in Krnjača AC, 26 in specialized centres for children and 19 in NGO-run facilities. The high number of irregularly arriving and departing UASC, their vulnerability to exploitation by smugglers and other criminals, as well as their access to legal status, education, services and safe accommodation, remained of concern.
- Continuing the implementation of its comprehensive action plan for the Protection from Sexual Exploitation and Abuse (PSEA), UNHCR raised awareness on PSEA in focus group discussions with residents of Sombor Reception/Transit Centre (RTC).
- Multifunctional Teams of authorities, civil society and UNHCR continued using a new Communicating with Communities questionnaire to conduct participatory assessments with residents of Obrenovac, Adaševci, Šid and Principovac RTCs, as well as with privately accommodated refugee women in Belgrade. The questionnaire was also used in focus group discussions with internally displaced persons in Belgrade and Aleksandrovac.
