## Refugee Access to Livelihoods and Housing, Land, and Property

May 2019 **UGANDA** 

#### CONTEXT

Uganda is currently hosting the largest number of refugees in the region with over 1.2 million refugees and asylum seekers, primarily from South Sudan, the Democratic Republic of Congo (DRC), and Burundi.1 Recently arrived refugees have joined Rwandese, Somali, and other refugees that have lived in Uganda for decades. Due to the large number of refugees, the range of countries of origin, and the varying lengths of displacement, there are key information gaps on how access to or lack of housing, land, and property (HLP) for refugees impact their potential for sustainable livelihoods. In partnership with Norwegian Refugee Council (NRC), REACH conducted an assessment from 3 December 2018 to 15 March 2019 to collect baseline data on refugees' access to livelihoods and HLP. The assessment aims to provide a better understanding of the conditions of refugee access to livelihoods and HLP, the linkages, and other factors influencing sustainable livelihoods and potential movement within Uganda.

#### METHODOLOGY

A mixed methods approach was used, driven by a POPULATION PROFILE OF household-level structured survey, semi-structured key informant interviews (KIIs) and focus group discussions (FGDs). The quantitative household-level survey produced results representative for the refugee population in 30 refugee settlements (considered as 25 due to five combined settlements in Adjumani) across 11 districts, as well as select divisions of Kampala (Makindye, Kampala Central, and Kawempe) with a 95% confidence level and 10% margin of error at the settlement level for all questions asked to the entire sample size. A total of 3,165 households were interviewed for this assessment. All questions referring to a subset are footnoted.

KIIs and FGDs were used to triangulate the data and provide context to quantitative findings. KIIs targeted settlement leadership, including Office of the Prime Minister (OPM) commandants and UNHCR staff, refugee welfare committee leaders, district local government officials, and key partners working in relevant sectors. Semi-structured FGDs were stratified by gender and conducted with refugee and host community groups in each location.

Findings in this factsheet are representative of refugee households living in Mungula I & II refugee settlement. A total of 107 refugee households were interviewed in Mungula I & II.

# REFUGEES IN UGANDA

Female-headed households (HHs): 67%

Average household size:

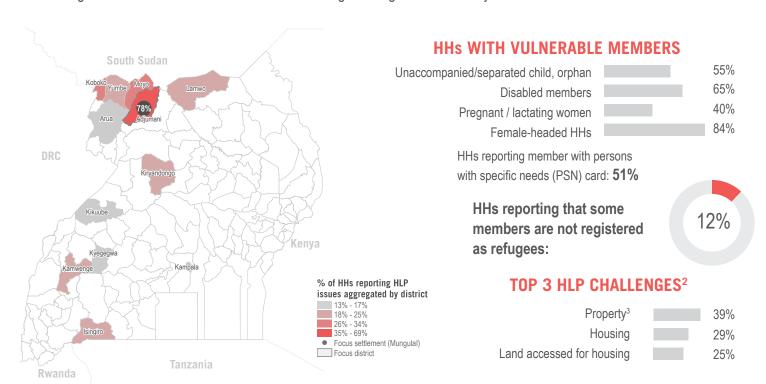

#### Displacement demographic

Top countries of origin:1

- South Sudan (65%)
- DRC (27%)
- Burundi (3%)
- Somalia (2%)

### BRIEF OVERVIEW OF MUNGULA I&II IN ADJUMANI DISTRICT

Mungula has consistently hosted South Sudanese refugees since it was first established in 1996. As a result, there are close linkages between settlement residents and the neighbouring host community.

<sup>&</sup>lt;sup>1</sup> Figures based on United Nations High Commissioner for Refugees (UNHCR) and Office of the Prime Minister (OPM)population figures updated as of April 2019.

<sup>&</sup>lt;sup>3</sup> Respondents could answer more than one option for this question.

<sup>&</sup>lt;sup>2</sup>This question was only asked to the 78% of respondents facing HLP challenges. The level of confidence may thus be lower than 95%.

### HOUSING

### **UGANDA**

**DISTRICT: ADJUMANI** 

SETTLEMENT: MUNGULA I&II

### TENURE ARRANGEMENTS

% of HHs by shelter tenure:

0% of HHs have documentation proving ownership or legal occupancy of shelter.

% of HHs by methods of shelter acquisition:

Construct	100%
Acquire	0%

Of the 100% of HHs that reported constructing their shelter, most commonly reported ways of acquiring materials:<sup>3</sup>

### SHELTER CHALLENGES

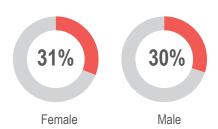

89% of HHs reported shelter damage. Of those, the most commonly reported parts of the shelter damaged are:<sup>3</sup>

Damage to roof	96%
Damage to windows and/or doors	14%
Damage to floor	6%

48% of HHs reported not being able to conduct repairs. Of those, the most commonly reported reasons include:<sup>3</sup>

% of HHs reporting members do not feel safe in their current shelter:

### LAND

### **ACCESS TO LAND**

% of HH reporting:3

#### Method of accessing land around shelter plot:

10% of HHs reported accessing land outside their shelter. Of those, the most commonly reported methods of accessing that land are:<sup>3</sup>

### **USE OF LAND FOR CULTIVATION**

98% of HHs reported using their shelter plot for cultivation. Of those, the following reported on sufficiency of the land to provide food for the HH in the most recent harvest.

### FORMAL AGREEMENTS

Of the 2% that access land around shelter plot through renting, free access, or ownership, 0% of HHs that have a formal agreement to access the land

Of the 91% of land accessed outside of shelter plot through renting, free access, or ownership, 0% are accessed through formal agreement

<sup>&</sup>lt;sup>4</sup> The Government of Uganda allocates land for residential and agricultural purposes, to refugees, irrespective of ethnicity and origin. This is done via OPM with the support of UNHCR.

### **HLP Challenges**

**UGANDA** 

DISTRICT: ADJUMANI

**SETTLEMENT: MUNGULA I&II** 

78% of HHs reported facing HLP challenges. Of those:

Most commonly reported areas of HLP issues (% of HLP issues):<sup>3</sup>

Most commonly reported types of HLP issues (% of HLP issues):<sup>3</sup>

### **HLP ISSUE RESOLUTION**

49% of the 101 HLP issues reported were attempted to be resolved by the household

Out of the HLP issues that HHs attempted to resolve, the following mechanisms were used:3

Refugee Welfare Committee	53%
Help desk	41%
Family	10%

33% of the HLP issues reported were resolved

### **PROPERTY**

24% of HHs reported having no property at all. Out of the 76% who do:

HHs with income-generating property:

23%

Most commonly reported type of property:

97% of property items are owned by one owner

Proportion of those by sex of owner:

4% of HHs that own property/assets reported having documentation proving ownership or legal access

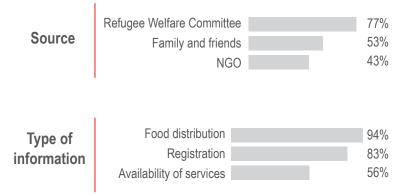

% of HHs owning number of income-generating property items:

77% Zero income-generating items22% One income-generating item1% Two income-generating items0% Three income-generating items

# ACCESS TO INFORMATION

Most commonly reported sources and types of information HHs access:<sup>3</sup>

97% of HHs reported trusting the information they

Most commonly reported information needs of HHs by area:<sup>3</sup>

Availability of services	59%
Food distribution	56%
Registration	33%

### **LIVELIHOODS**

### **UGANDA**

DISTRICT: ADJUMANI

**SETTLEMENT: MUNGULA I&II** 

### HHs reporting perceived livelihoods challenges:

100%

### LIVELIHOODS SOURCES

Out of the 100% of HHs who reported having a source of income, the most commonly reported sources are:<sup>3</sup>

Most commonly reported livelihood groups HH members participate in:<sup>3</sup>

#### Most commonly reported livelihoods challenges:3

### **SKILLS AND ASPIRATIONS**

81% of HHs have men of working age and 96% of HHs have women of working age. Of those:

Most commonly reported livelihoods skills gained in country of origin:<sup>3</sup>

<b>†</b>	•		
Farming	70%	Domestic work in the home	74%
Livestock	48%	Farming	68%
Domestic work in the home	38%	Livestock	27%

Most commonly reported livelihoods aspirations:<sup>3</sup>

Ť		<b>†</b>	
Farming	30%	Tailoring	35%
Health worker	25%	Street trade	30%
Livestock	18%	: : Farming	26%

### **MOVEMENTS WITHIN UGANDA**

### **PAST MOVEMENTS**

% of HHs that had at least one member move in the year prior to data collection:

Of those:

Types of destinations:

Most commonly reported reasons for moving:3

Presence of education services	38%
Joining other family members	31%
Presence of employment opportunities	19%

80% of the HHs with at least one member who moved reported that they receive resources from the member that moved

### **MOVEMENT INTENTIONS**

% of HHs that have at least one member planning to move in the 6 months following data collection:

Of those:

Types of destinations:

Most commonly reported reasons for planned movement:3

100% Joining other family members
